Subject: Alaska Go live date postponed

Good morning, Susan,

Alaska has decided to postpone our go-live date by 7 more weeks, so we will go live on Monday, January 22 (but switch over the weekend of the 20th). Please notify Virginia that we won't need their assistance in December, and make any other adjustments in your schedule/notifications to accommodate this. Thank you for your help.

Hello Amir,

Your results have revealed two bugs in my implementation. Records with inactive titles were not appropriately excluded, and active "TITLE ONLY" records with old model years were inappropriately excluded due to their inherent lack of registration. I've addressed these issues and checked every conflict listed to ensure each has been resolved. Please find attached the latest output. I will forward these files to Dave Monroe and ask him to upload the files through file transfer.

If you'd still like to meet, I'm available any time from now through Wednesday evening.

Hi Dillon,

This requirement is in the batch spec in section 8.3.

VIN POINTER FILE Description

In addition to the vehicle type include/exclude criteria noted above, other rules also restrict what vehicles are added to the VIN Pointer File. Vehicles that, as a group, have non-standard VINs will be excluded from the VIN Pointer File (non-standard VINs do not adhere to the format defined in the Final Rule on Vehicle Identification Number Requirements provided by the Department of Transportation, National Highway Traffic Safety Administration). As an example, golf carts are considered recreational vehicles (a vehicle type on the "include" list), but golf carts will not be placed on the VIN Pointer File because they are typically assigned non-standard VINs.

In addition, the VIN Pointer will only contain titles for vehicles that meet at least one of the following criteria:

- Vehicle has an active registration and an active title;
- Vehicle has an active title and the vehicle has a model year of 1981 or later or
- Vehicle has an active registration and the registration is the proof of ownership.

An active title is one that the jurisdiction considers to represent current ownership of a vehicle. The jurisdiction maintains current data regarding the title, and ownership is negotiable based on the title. A title becomes inactive if the vehicle is retitled by another jurisdiction (the new jurisdiction now has the active title and the title in the old jurisdiction is inactive). A title also becomes inactive when a jurisdiction marks the title record as purged (or a similar status) so that the jurisdiction no longer considers the title record to represent current ownership of the vehicle. Regardless, states should not provide the central site title records that are inactive.

Model year restrictions were applied because of the high incidence of nonstandard VIN duplicates on pre-1981 vehicles. During the pilot, counts of duplicate VINs from 1981 and earlier were in the range of 30 percent, while the count of duplicate VINs from 1982 and later was between two and five percent.

The rules above exclude vehicles that:

- Have been garaged, and
- Have an active registration only, but the registration is not the proof of ownership (the vehicle will be added to the VIN Pointer File by the state having the active title).

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - Batch Initial Load

Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided. **Yes, if vehicle model year is pre-1981 and if it does not have active registration then it should NOT be reported to NMVTIS.**

Can you please ensure this rule is enforced and send me the files again so I can verify

Thank You

Subject: Re: AK NMVTIS - Batch Initial Load

Hello Amir,

I've responded to all of the test cases in this group:

Following test cases I was expecting data but did not get the data

002 - This record was sent. The title can be found on line 38 and the brand on line 8 of the previous execution, or 39 and 8 of the current execution.

096 - Vehicle Type Map say do not include LP (Pole)

152 - Was trailer, should've been truck. Should now be fixed.

159 - Was trailer, should've been truck. Should now be fixed.

164 - Was trailer, should've been truck. Should now be fixed.

175 - Was trailer, should've been truck. Should now be fixed.

I started responding to each test case in the second group, but I've noticed the errors fall into three categories:

1. Trucks that should've been trailers.
2. Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided.
3. Records were not appropriately being filtered when title was inactive.

I've fixed several (but probably not all) of the truck/trailer mismatches. I've added the necessary changes to the batch file code to restrict inactive records. This seems to have removed dozens of the failing records. Can you please verify again before we continue with narrower issues? Once I have confirmation on the registration restriction, I can add that if necessary.

Thank you,

Hi,

I notice following

There are records where the title issue date and title status is set to NULL, these cannot be set to NULL, these should have valid values

There are records with odometer reading of 000000000, we do not allow odometer reading of all zeros, either it has to be UNKNOWN or a valid numeric reading

When record has registration only and no title, the Registration issue date should be used as Title Issue Date and Plate number should be populated in the Title Number field.

I looked at the test results from back in 2010 and see that AK had used the odometer readings of UNKNOWN and EXEMPT

Thank You

Hello Amir,

Here's the latest execution. I've added checks for being an NMVTIS vehicle type, and either 1981+ Model Year or current registration status. These results should be considerably better.

Thank you,

Hello Susan,

Can I please have a copy of this documentation? I've attached a copy of the documentation I was given from the original developer which seems to be a bit less detailed.

Thank you,

Subject: RE: AK NMVTIS - Batch Initial Load

This email comes from an external source, so remember, Think Before You Click!
[Hi Dillon,](#)

This requirement is in the batch spec in section 8.3.

VIN POINTER FILE Description

In addition to the vehicle type include/exclude criteria noted above, other rules also restrict what vehicles are added to the VIN Pointer File. Vehicles that, as a group, have non-standard VINs will be excluded from the VIN Pointer File (non-standard VINs do not adhere to the format defined in the Final Rule on Vehicle Identification Number Requirements provided by the Department of Transportation, National Highway Traffic Safety Administration). As an example, golf carts are considered recreational vehicles (a vehicle type on the "include" list), but golf carts will not be placed on the VIN Pointer File because they are typically assigned non-standard VINs.

In addition, the VIN Pointer will only contain titles for vehicles that meet at least one of the following criteria:

- Vehicle has an active registration and an active title;
- Vehicle has an active title and the vehicle has a model year of 1981 or later or
- Vehicle has an active registration and the registration is the proof of ownership.

An active title is one that the jurisdiction considers to represent current ownership of a vehicle. The jurisdiction maintains current data regarding the title, and ownership is negotiable based on the title. A title becomes inactive if the vehicle is retitled by another jurisdiction (the new jurisdiction now has the active title and the title in the old jurisdiction is inactive). A title also becomes inactive when a jurisdiction marks the title record as purged (or a similar status) so that the jurisdiction no longer considers the title record to represent current ownership of the vehicle. Regardless, states should not provide the central site title records that are inactive.

Model year restrictions were applied because of the high incidence of nonstandard VIN duplicates on pre-1981 vehicles. During the pilot, counts of duplicate VINs from 1981 and earlier were in the range of 30 percent, while the count of duplicate VINs from 1982 and later was between two and five percent.

The rules above exclude vehicles that:

- Have been garaged, and
- Have an active registration only, but the registration is not the proof of ownership (the vehicle will be added to the VIN Pointer File by the state having the active title).

Thanks,
[Susan Creighton / 703.908.5893 office](#)

Subject: RE: AK NMVTIS - Batch Initial Load

Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided. **Yes, if vehicle model year is pre-1981 and if it does not have active registration then it should NOT be reported to NMVTIS.**

Can you please ensure this rule is enforced and send me the files again so I can verify

Thank You

Subject: Re: AK NMVTIS - Batch Initial Load

Hello Amir,

I've responded to all of the test cases in this group:

Following test cases I was expecting data but did not get the data

002 - This record was sent. The title can be found on line 38 and the brand on line 8 of the previous execution, or 39 and 8 of the current execution.

096 - Vehicle Type Map say do not include LP (Pole)

152 - Was trailer, should've been truck. Should now be fixed.

159 - Was trailer, should've been truck. Should now be fixed.

164 - Was trailer, should've been truck. Should now be fixed.

175 - Was trailer, should've been truck. Should now be fixed.

I started responding to each test case in the second group, but I've noticed the errors fall into three categories:

1. Trucks that should've been trailers.
2. Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided.
3. Records were not appropriately being filtered when title was inactive.

I've fixed several (but probably not all) of the truck/trailer mismatches. I've added the necessary changes to the batch file code to restrict inactive records. This seems to have removed dozens of the failing records. Can you please verify again before we continue with narrower issues? Once I have confirmation on the registration restriction, I can add that if necessary.

Thank you,

Hi,

I notice following

There are records where the title issue date and title status is set to NULL, these cannot be set to NULL, these should have valid values

There are records with odometer reading of 000000000, we do not allow odometer reading of all zeros, either it has to be UNKNOWN or a valid numeric reading

When record has registration only and no title, the Registration issue date should be used as Title Issue Date and Plate number should be populated in the Title Number field.

I looked at the test results from back in 2010 and see that AK had used the odometer readings of UNKNOWN and EXEMPT

Thank You

Subject: AAMVA Training for CDLIS Reports

Good afternoon,

It's almost time for training again! The AAMVA Systems Training aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations.

Below are the AAMVA training courses that focus on how to use CDLIS Reports. The following five courses are available:

December 12th CDLIS Reports- Timeliness & Accuracy Workbook: Timeliness (intermediate) - In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session reviews the timeliness tabs in the workbook and emphasizes how these reports can be used to get bad drivers off the road to ultimately save lives.

December 13th CDLIS Reports- Timeliness & Accuracy Workbook: Data Quality (intermediate) - In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session reviews the data quality tabs in the workbook and emphasizes how these reports can be used to get bad drivers off the road to ultimately save lives.

December 14th CDLIS Reports- CD90.4.1 OOST as SOR (advanced) - A very detailed session that will demonstrate how to use the 90.4.1 report as the SOR to reduce the number of missing convictions and to avoid improperly applying withdrawals (ensure the driver history is maintained correctly).

NOTE: All courses are **free** for AAMVA members.

Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session reviews the timeliness tabs in the workbook and emphasizes how these reports can be used to get bad drivers off the road to ultimately save lives.

December 13th CDLIS Reports- Timeliness & Accuracy Workbook: Data Quality (intermediate) -

In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session reviews the data quality tabs in the workbook and emphasizes how these reports can be used to get bad drivers off the road to ultimately save lives.

December 14th CDLIS Reports- CD90.4.1 OOST as SOR (advanced) - A very detailed session that will demonstrate how to use the 90.4.1 report as the SOR to reduce the number of missing convictions and to avoid improperly applying withdrawals (ensure the driver history is maintained correctly).

NOTE: All courses are **free** for AAMVA members.

Registration Opens in December

**WORKSHOP
& LAW INSTITUTE**
DENVER, CO
MARCH 13-14

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez' senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

AAMVA Awards 2018 - Call for Entries!

OUR SURVEYS

Please respond to these surveys from Connecticut, Arkansas, Texas and Florida.

Vehicle Information for Out Of State Registrations (Ends 12/01/2017) Responses received from FL, ID, PA, UT, VA.

Uniform Specifications for DL Examiners (Ends 11/24/2017) Responses received from AB, CO, FL, GA, ID, MD, ME, MS, MT, NE, NH, NY, PA, SC, SD, TN, TX, VA.

Customer Relationship Management Software (CRM) (Ends 11/27/2017) Responses received from AR, CT, FL, GA, HI, ID, IL, MD, ME, MO, MS, MT, NE, NY, OH, PA, SC, SD, VA, WA.

Capturing Alternative Fuel Types (Ends 11/20/2017) Responses received from AL, CA, CT, GA, ID IL, IN, KY, LA, ME, MN, NE, NH, NJ, OK, OR, SC, SK, VA, VT, WI, WY.

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for October are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

FEDERAL NEWS

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez' senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

AAMVA Awards 2018 - Call for Entries!

System Modernization RFS 18-023**
Deadline: Feb. 14, 2018

OUR SURVEYS

Please respond to these surveys from Connecticut, Arkansas, Texas and Florida.

Vehicle Information for Out Of State Registrations (Ends 12/01/2017) Responses received from FL, ID, PA, UT, VA.

Uniform Specifications for DL Examiners (Ends 11/24/2017) Responses received from AB, CO, FL, GA, ID, MD, ME, MS, MT, NE, NH, NY, PA, SC, SD, TN, TX, VA.

Customer Relationship Management Software (CRM) (Ends 11/27/2017) Responses received from AR, CT, FL, GA, HI, ID, IL, MD, ME, MO, MS, MT, NE, NY, OH, PA, SC, SD, VA, WA.

Capturing Alternative Fuel Types (Ends 11/20/2017) Responses received from AL, CA, CT, GA, ID, IL, IN, KY, LA, ME, MN, NE, NH, NJ, OK, OR, SC, SK, VA, VT, WI, WY.

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

At the direction and support of FMCSA, AAMVA produces monthly reports on the CDLIS Timeliness, Data Quality, and Capabilities of all jurisdictions. The reports for October are now ready for viewing. To request a copy of these reports, please click on the following link [REQUEST](#)

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

FEDERAL NEWS

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

2018 Workshop - Save the Date!

Registration Opens in December

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

DENVER, CO
MARCH 13-14

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez' senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference,

including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

AAMVA Awards 2018 - Call for Entries!

2018 Workshop - Save the Date!

Registration Opens in December

**WORKSHOP
& LAW INSTITUTE**
DENVER, CO
MARCH 13-14

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez's senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

AAMVA Awards 2018 - Call for Entries!

Award submissions are due on December 22

**Indiana RFP: BMV/C STARS
System Modernization RFS 18-023**
Deadline: Feb. 14, 2018

OUR SURVEYS

Please respond to these surveys from Connecticut, Arkansas, Texas and Florida.

Vehicle Information for Out Of State Registrations (Ends 12/01/2017) Responses received from FL, ID, PA, UT, VA.

Uniform Specifications for DL Examiners (Ends 11/24/2017) Responses received from AB, CO, FL, GA, ID, MD, ME, MS, MT, NE, NH, NY, PA, SC, SD, TN, TX, VA.

Customer Relationship Management Software (CRM) (Ends 11/27/2017) Responses received from AR, CT, FL, GA, HI, ID, IL, MD, ME, MO, MS, MT, NE, NY, OH, PA, SC, SD, VA, WA.

Capturing Alternative Fuel Types (Ends 11/20/2017) Responses received from AL, CA, CT, GA, ID, IL, IN, KY, LA, ME, MN, NE, NH, NJ, OK, OR, SC, SK, VA, VT, WI, WY.

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

FEDERAL NEWS

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

http://images.magnetmail.net/images/clients/AAMVA/twir_root/FrancisHeidi.jpg Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Visits Idaho Agencies

They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

http://www.mmsend35.com/link.cfm?r=FFq0GatosQ01SweJmupc_g~~&pe=qrnW9LHx5MhJwAmn8p_JA6cSkgl6qSAU_faDmwrTFIB_vxeSL1CXKiPDpo_9arBpZ-F5i3bb_yzygtlzdvdHDjA~~&t=Y9TL12D-cF48sP0oIWx7pA~~The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization

development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez's senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

FEDERAL NEWS

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

2018 Workshop - Save the Date!

Registration Opens in December

**WORKSHOP
& LAW INSTITUTE**
DENVER, CO
MARCH 13-14

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez' senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

AAMVA Awards 2018 - Call for Entries!

Award submissions are due on December 22

**Indiana RFP: BMV/C STARS
System Modernization RFS 18-023**
Deadline: Feb. 14, 2018

OUR SURVEYS

Please respond to these surveys from Connecticut, Arkansas, Texas and Florida.

Vehicle Information for Out Of State Registrations (Ends 12/01/2017) Responses received from FL, ID, PA, UT, VA.

Uniform Specifications for DL Examiners (Ends 11/24/2017) Responses received from AB, CO, FL, GA, ID, MD, ME, MS, MT, NE, NH, NY, PA, SC, SD, TN, TX, VA.

Customer Relationship Management Software (CRM) (Ends 11/27/2017) Responses received from AR, CT, FL, GA, HI, ID, IL, MD, ME, MO, MS, MT, NE, NY, OH, PA, SC, SD, VA, WA.

Capturing Alternative Fuel Types (Ends 11/20/2017) Responses received from AL, CA, CT, GA, ID, IL, IN, KY, LA, ME, MN, NE, NH, NJ, OK, OR, SC, SK, VA, VT, WI, WY.

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez' senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference,

including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

AAMVA Awards 2018 - Call for Entries!

System Modernization RFS 18-023**
Deadline: Feb. 14, 2018

OUR SURVEYS

Please respond to these surveys from Connecticut, Arkansas, Texas and Florida.

Vehicle Information for Out Of State Registrations (Ends 12/01/2017) Responses received from FL, ID, PA, UT, VA.

Uniform Specifications for DL Examiners (Ends 11/24/2017) Responses received from AB, CO, FL, GA, ID, MD, ME, MS, MT, NE, NH, NY, PA, SC, SD, TN, TX, VA.

Customer Relationship Management Software (CRM) (Ends 11/27/2017) Responses received from AR, CT, FL, GA, HI, ID, IL, MD, ME, MO, MS, MT, NE, NY, OH, PA, SC, SD, VA, WA.

Capturing Alternative Fuel Types (Ends 11/20/2017) Responses received from AL, CA, CT, GA, ID IL, IN, KY, LA, ME, MN, NE, NH, NJ, OK, OR, SC, SK, VA, VT, WI, WY.

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

FEDERAL NEWS

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

DENVER, CO
MARCH 13-14

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

2018 Workshop - Save the Date!

Registration Opens in December

**WORKSHOP
& LAW INSTITUTE**
DENVER, CO
MARCH 13-14

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez's senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

2018 Workshop - Save the Date!

Registration Opens in December

**WORKSHOP
& LAW INSTITUTE**
DENVER, CO
MARCH 13-14

Mark your calendar for AAMVA's Workshop & Law Institute, March 13-14, in Denver, Colorado. This unique event provides AAMVA members with an intimate and collaborative environment to network and learn from fellow motor vehicle and law enforcement colleagues across North America. Attendees will have the opportunity to hear from and meet directly with fellow jurisdictions, as well as industry organizations that provide the products and services you need. The two-day schedule is packed with sessions covering hot topics in the motor vehicle and law enforcement community. Keep an eye out for more information and registration opening soon!

Heidi Francis Accepts Position of Interim Associate Deputy Minister of Ontario Shared Services

Please join AAMVA in congratulating Heidi Francis on her recent acceptance of the position of Interim Associate Deputy Minister of Ontario Shared Services, effective December 11, 2017. Since June 2014, Heidi has served as the Assistant Deputy Minister, Road User Safety Division, at the Ministry of Transportation where she leads a high-performing, client-focused team that develops and promotes road user safety programs. Under Heidi's leadership, the Road User Safety Division has begun implementing three road safety bills; started the next phase of modernizing one of the largest driver and vehicle databases in North America; enforced commercial truck safety and successfully launched the first automated vehicles program in Canada. She has demonstrated leadership throughout North America including allowing a gender neutral identifier on driver's licenses and mandatory entry level training for commercial drivers. Details of who will act as Associate Deputy Minister will be forthcoming. Also in light of this development, Francis has informed AAMVA that she will step down as the Canadian Representative serving on AAMVA's International Board of Directors.

OPEN RFPs

AAMVA Visits Idaho Agencies

On Tuesday, November 14, Julie Knittle, Director of Member Services for Regions 3 & 4, and Brian Ursino, Director of Law Enforcement, met with Alberto Gonzalez, Motor Vehicle Administrator of the Idaho Division of Motor Vehicles. They met with several of Mr. Gonzalez' senior staff to hear about their operations and hot topics such as their system modernization project and progress on becoming Real ID compliant. Julie and Brian provided overviews of their program areas and provided information on AAMVA solutions of interest. The day ended with a tour of the DMV facility and various business functions.

On Wednesday, November 14, Brian and Julie met with Captain Vern Hancock at Idaho State Police Headquarters (Colonel Kedrick Wills was out-of-state). They were joined by Mr. Gonzalez who is interested in increasing the collaboration between the Idaho DMV and State Police. It was a very productive meeting that focused on the benefits of AAMVA engagement and the value of collaboration between departments.

Internet Vehicle Sales Working Group Meets

The [Internet Vehicle Sales Working Group](#) met at AAMVA headquarters in Arlington, VA last week to begin to develop best practices for regulating internet vehicle sales. The group also worked on recommendations and educational materials for member jurisdictions to help identify, understand, and combat fraud and deceptive practices. The working group was pleased to be joined by several stakeholders, either in person or by teleconference, including Insurance Auto Auctions, NADA, CarFax, TRUECar, ADESA, Cox Automotive, Interstate Title solutions, Metro Title Services, NIADA, NICB and IAATI. Jennifer Berry (CA), Working Group Chair, and David Silk (ME), Vice-chair, lead discussions on current and future vehicle sales business models, advertising, unlicensed dealers, consumer protection and government roles and responsibilities. The group anticipates the best practices will be published in late 2018.

Joint mDL Working Group Meets

The AAMVA Joint mDL working group (Card Design Standard committee & Electronic Identity working group) met in Tampa for a face-to-face meeting. The group focused on the standardization development being pursued for the community. This is being done in very close coordination with ISO SC17/WG10. The working group also spent time discussing additional areas of assistance for members contemplating a [mDL program](#), including procurement guidance (to be published) and conformity assessment testing. The CDS members also had discussions about updating the Secure Card Design Principles, a companion to the DL/ID standard. The joint working group was Chaired by Corey Lorenz (IA) – he filled in for Kami Beers (DE), who has recently left DMV. The Joint WG thanks Kami for her time leading this very important effort and her years volunteering on AAMVA initiatives and wishes her all the best!

AAMVA Awards 2018 - Call for Entries!

Award submissions are due on December 22

**Indiana RFP: BMV/C STARS
System Modernization RFS 18-023**
Deadline: Feb. 14, 2018

OUR SURVEYS

Please respond to these surveys from Connecticut, Arkansas, Texas and Florida.

Vehicle Information for Out Of State Registrations (Ends 12/01/2017) Responses received from FL, ID, PA, UT, VA.

Uniform Specifications for DL Examiners (Ends 11/24/2017) Responses received from AB, CO, FL, GA, ID, MD, ME, MS, MT, NE, NH, NY, PA, SC, SD, TN, TX, VA.

Customer Relationship Management Software (CRM) (Ends 11/27/2017) Responses received from AR, CT, FL, GA, HI, ID, IL, MD, ME, MO, MS, MT, NE, NY, OH, PA, SC, SD, VA, WA.

Capturing Alternative Fuel Types (Ends 11/20/2017) Responses received from AL, CA, CT, GA, ID, IL, IN, KY, LA, ME, MN, NE, NH, NJ, OK, OR, SC, SK, VA, VT, WI, WY.

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

AAMVA Seeks Technical Advisor for NMVTIS Law Enforcement Working Group

AAMVA is seeking a technical advisor for the NMVTIS Law Enforcement Working Group. The technical advisor shares resources and knowledge related to industry's use of NMVTIS and provides input into methods law enforcement can utilize to best network with industry. The technical advisor will have experience working with the NMVTIS program and have an understanding of NMVTIS workflow. This is a two-year appointment.

The purpose of the NMVTIS Law Enforcement Working Group is to identify business requirements for law enforcement's use of NMVTIS with the goal of providing pertinent information to investigate vehicle related crimes. The Working Group addresses and resolves vehicle, title, registration, and brand issues as they pertain to NMVTIS and implements strategies to increase NMVTIS usage within the law enforcement community. This Working Group operates under the auspices of the AAMVA Law Enforcement Standing Committee and normally meets in-person once per year.

After reviewing the expectations and you are interested in serving on this Working Group, please [complete the application](#) and send it to Dianne Graham at committees@aamva.org by **November 24, 2017**.

CDLIS Timeliness and Accuracy - Summary Workbook Reports for Jurisdictions

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, November 21, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided.

JURISDICTION NEWS

Georgia Department Of Driver Services (DDS) Hosts Chinese Delegation

Georgia Department of Driver Services Commissioner (DDS) Spencer R. Moore and his executive team recently were honored to welcome to its Administrative Headquarters numerous delegates from the Insurance Association of China, as well as insurance representatives from several provinces in China. Other guests from China included

representatives from Times Information Technology Development and Genilex Information Technology. The event was a joint collaboration between the Georgia DDS, LexisNexis, and its Chinese counterparts. DDS provided the delegation with a complete overview of its operations, with a specific emphasis on how driver information is used by the automobile insurance industry in the United States.

Société de l'assurance automobile du Québec and Quebec Law Enforcement Discuss International Mobile Driver License Initiatives

On November 9th, Robert Rousse, SAAQ Business Standards and Partnerships Director, and Paul Steier, AAMVA Law Enforcement Program Manager, attended a meeting with Quebec SAAQ administrators and Quebec law enforcement leaders to discuss work underway in the United States and other countries with testing and piloting of mobile driver licenses (mDL). The discussion focused on what an mDL is, current research and testing, standards and interoperability, and future projects and goals. The meeting took place at the Quebec Police Academy in Nicolet, Quebec.

Iowa DOT Announces Community Outreach Coordinator

The Iowa Department of Transportation's Motor Vehicle Division (MVD) is excited to announce the creation of a new position, Community Outreach Coordinator. Mindi Nguyen will lead this program's efforts responsible for developing specific plans focusing on customer and community outreach, with an emphasis on transportation equity. The position is responsible for ensuring specific audiences with diverse needs have equal access to services and that MVD is following through on their promise to be customer driven by reaching customers in ways that are convenient and useful to them. Mindi began her new duties on November 17th. Congratulations Mindi.

FEDERAL NEWS

NHTSA: A Comparative Analysis of State Traffic Safety Countermeasures and Implications for Progress "Toward Zero Deaths" in the United States

The U.S. National Highway Traffic Safety Administration has released a report that outlines how changes in engineering, technology, and behaviors can aid in the progress toward vision zero. Vision Zero has been established as a national transportation policy in several nations with a goal of zero deaths or serious injuries from crashes in road traffic. This vision seeks to shift responsibility for traffic safety from individual road users to a roadway system designed to accommodate and protect against human error. [Read more here.](#)

Subject: RE: Alaska Go live date postponed

Hi Susan,

Thank you for taking care of this.

I was not involved in the decision to postpone. However, my understanding is that since there are still some unresolved user-identified issues (not UNI or NMVTIS related), we wanted to be able to fix everything and have sufficient time to fully test all the fixes rather than trying to rush through to meet the deadline.

Attachments: AK Jurisdiction Contact Form 20171114.doc

Hi Susan,

Attached is the Jurisdiction Contact form based on feedback I've received from Debra. We don't do batches or SEW/OUTAMI files, so that is left blank for now – if the day ever comes that we do those, a contact can be provided at that time. I've added Kiley and Katie on the email chain, since they are referenced in here as contacts.

Attachments: AK Jurisdiction Contact Form 20171114.doc

Hi Susan,

Attached is the Jurisdiction Contact form based on feedback I've received from Debra. We don't do batches or SEW/OUTAMI files, so that is left blank for now – if the day ever comes that we do those, a contact can be provided at that time. I've added Kiley and Katie on the email chain, since they are referenced in here as contacts.

Regards,

Hi AK,

Attached are the minutes for today's meeting. Please let me know if I missed or misstated anything.

Also attached is the implementation plan we went over today as well as the Jurisdiction contacts form for you to fill out. I checked and you are getting your N* messages starting at 23:45 ET so I updated the plan to reflect that you will keep that at the same.

Please don't hesitate to let me know if you have questions.

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 |

Contact Descriptions

Note that one person may fill multiple roles.

Business Contact: The person(s) responsible for addressing policy, process, and regulatory issues with AAMVA and other application users.

Helpdesk Support: The person(s) responsible for addressing and resolving help desk issues with AAMVA and other application users. Help desk issues include transmission problems, questions about central file or state data, broken pointers, suspended transactions, and duplicates.

Online Technical Contact*: The person(s) responsible for addressing online technical issues with AAMVA and other application users. Technical issues include programming, problems with message formats, and testing.

Batch Technical Contact*: The person(s) responsible for addressing batch technical issues with AAMVA and other application users. Technical issues include programming, problems with file formats, and testing.

UNI Technical Support: The person(s) responsible for addressing and resolving connectivity issues with AAMVA and other application users.

Report Recipient(s): Person(s) wishing to receive the specified report via email. This should include, at a minimum, those individuals responsible for resolving any issues noted in the report and those with operational oversight.

Batch File Recipient(s): The person(s) responsible for retrieving and processing the specified file from AAMVA's FTP server. This should include, at a minimum, those individuals responsible for correcting and resubmitting batch errors and those with operational oversight.

Email Distribution List: Person(s) wishing to receive email notifications containing information that may affect the system users. This includes release notifications, system outages, and announcements of new participants.

*Names provided will be included on a Jurisdiction to Jurisdiction Contact List published on AAMVA's website (for jurisdictional members only).

Subject: RE: Alaska Go live date postponed

Hi Susan,

Thank you for taking care of this.

I was not involved in the decision to postpone. However, my understanding is that since there are still some unresolved user-identified issues (not UNI or NMVTIS related), we wanted to be able to fix everything and have sufficient time to fully test all the fixes rather than trying to rush through to meet the deadline.

Subject: Alaska Go live date postponed

Good morning, Susan,

Alaska has decided to postpone our go-live date by 7 more weeks, so we will go live on Monday, January 22 (but switch over the weekend of the 20th). Please notify Virginia that we won't need their assistance in December, and make any other adjustments in your schedule/notifications to accommodate this. Thank you for your help.

Hi Mina,

You will be getting the OUTAMI.txt files periodically when we do a mass operations process like an initial load, mass delete or duplicate VIN resolution. So you should have someone responsible for picking those up and processing them in production when this happens like we did in test. Could you please go ahead and provide a contact for that. We can add contacts for SEW files later if you like when you complete the initial load testing which will be used for data sync down the road.

Thanks,

Subject: AK - NMVTIS Re-write AMIE Online Updates/Inquiries Meeting Minutes

Hi AK,

Attached are the minutes for today's meeting. Please let me know if I missed or misstated anything.

Also attached is the implementation plan we went over today as well as the Jurisdiction contacts form for you to fill out. I checked and you are getting your N* messages starting at 23:45 ET so I updated the plan to reflect that you will keep that at the same.

Please don't hesitate to let me know if you have questions.

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Be part of the solution.

[Help protect states and consumers from vehicle fraud and unsafe vehicles; get information from the National Motor Vehicle Title Information System.](#)

Contact Descriptions

Note that one person may fill multiple roles.

Business Contact: The person(s) responsible for addressing policy, process, and regulatory issues with AAMVA and other application users.

Helpdesk Support: The person(s) responsible for addressing and resolving help desk issues with AAMVA and other application users. Help desk issues include transmission problems, questions about central file or state data, broken pointers, suspended transactions, and duplicates.

Online Technical Contact*: The person(s) responsible for addressing online technical issues with AAMVA and other application users. Technical issues include programming, problems with message formats, and testing.

Batch Technical Contact*: The person(s) responsible for addressing batch technical issues with AAMVA and other application users. Technical issues include programming, problems with file formats, and testing.

UNI Technical Support: The person(s) responsible for addressing and resolving connectivity issues with AAMVA and other application users.

Report Recipient(s): Person(s) wishing to receive the specified report via email. This should include, at a minimum, those individuals responsible for resolving any issues noted in the report and those with operational oversight.

Batch File Recipient(s): The person(s) responsible for retrieving and processing the specified file from AAMVA's FTP server. This should include, at a minimum, those individuals responsible for correcting and resubmitting batch errors and those with operational oversight.

Email Distribution List: Person(s) wishing to receive email notifications containing information that may affect the system users. This includes release notifications, system outages, and announcements of new participants.

*Names provided will be included on a Jurisdiction to Jurisdiction Contact List published on AAMVA's website (for jurisdictional members only).

Subject: RE: CDLIS Working Group Monthly Meeting

Dear CDLIS Working Group,

The documents related to today's meeting are now available on the CDLIS WG SharePoint Site.

We would appreciate it, if you could review the following documents reviewed in today's meeting and provide us your feedback.

1. CDLIS SPM Prototype Document

https://share.aamva.org/membersvc/commwg/CDLISworkgroup/WG%20Meeting%20Notes/CDLIS_SPM_rewrite_conviction_prototype_20171003.docx

2. CDLIS Specification Rewrite Prototype

https://share.aamva.org/membersvc/commwg/CDLISworkgroup/WG%20Meeting%20Notes/CD01_Specification_Rewrite_Prototype.docm

Hope you all have a great Thanksgiving holiday!

Thanks,

Madhu

Subject: AK NMVTIS Re-write Online Updates/Inquiries Implementation Postponed

NMVTIS Participants:

Alaska has decided to postpone their implementation of a rewrite for NMVTIS fully integrated online updates and inquiries. Instead of implementing on December 4, 2017 Alaska will implement in late January 2018. Announcements with additional information will be sent out in January.

If you have any questions or concerns, please contact the AAMVA Operations Department at 1-888-226-8280 option 1 or Helpdesk@aamva.org.

Subject: National Driver Register Cleanfile - December 17, 2017

The National Driver Register will conduct a Cleanfile on December 17, 2017.

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by December 6, 2017, and plan to send your file to NDR no later than December 13, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Hi,

I checked the results, much better now, only 1 test case seems to fail. Test Case 111, I am not expecting it but I received it in the file.

If you have a good explanation for it we may skip re-test for it.

Thank You

Hello Amir,

Your results have revealed two bugs in my implementation. Records with inactive titles were not appropriately excluded, and active "TITLE ONLY" records with old model years were inappropriately excluded due to their inherent lack of registration. I've addressed these issues and checked every conflict listed to ensure each has been resolved. Please find attached the latest output. I will forward these files to Dave Monroe and ask him to upload the files through file transfer.

If you'd still like to meet, I'm available any time from now through Wednesday evening.

Subject: RE: AK NMVTIS - Batch Initial Load

This email comes from an external source, so remember, Think Before You Click!

Hi Dillon,

This requirement is in the batch spec in section 8.3.

VIN POINTER FILE Description

In addition to the vehicle type include/exclude criteria noted above, other rules also restrict what vehicles are added to the VIN Pointer File. Vehicles that, as a group, have non-standard VINs will be excluded from the VIN Pointer File (non-standard VINs do not adhere to the format defined in the Final Rule on Vehicle Identification Number Requirements provided by the Department of Transportation, National Highway Traffic Safety Administration). As an example, golf carts are considered recreational vehicles (a vehicle type on the "include" list), but golf carts will not be placed on the VIN Pointer File because they are typically assigned non-standard VINs.

In addition, the VIN Pointer will only contain titles for vehicles that meet at least one of the following criteria:

- Vehicle has an active registration and an active title;
- Vehicle has an active title and the vehicle has a model year of 1981 or later or
- Vehicle has an active registration and the registration is the proof of ownership.

An active title is one that the jurisdiction considers to represent current ownership of a vehicle. The jurisdiction maintains current data regarding the title, and ownership is negotiable based on the title. A title becomes inactive if the vehicle is retitled by another jurisdiction (the new jurisdiction now has the active title and the title in the old jurisdiction is inactive). A title also becomes inactive when a jurisdiction marks the title record as purged (or a similar status) so that the jurisdiction no longer considers the title record to represent current ownership of the vehicle. Regardless, states should not provide the central site title records that are inactive.

Model year restrictions were applied because of the high incidence of nonstandard VIN duplicates on pre-1981 vehicles. During the pilot, counts of duplicate VINs from 1981 and earlier were in the range of 30 percent, while the count of duplicate VINs from 1982 and later was between two and five percent.

The rules above exclude vehicles that:

- Have been garaged, and

- Have an active registration only, but the registration is not the proof of ownership (the vehicle will be added to the VIN Pointer File by the state having the active title).

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - Batch Initial Load

Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided. **Yes, if vehicle model year is pre-1981 and if it does not have active registration then it should NOT be reported to NMVTIS.**

Can you please ensure this rule is enforced and send me the files again so I can verify

Thank You

Subject: Re: AK NMVTIS - Batch Initial Load

Hello Amir,

I've responded to all of the test cases in this group:

Following test cases I was expecting data but did not get the data

002 - This record was sent. The title can be found on line 38 and the brand on line 8 of the previous execution, or 39 and 8 of the current execution.

096 - Vehicle Type Map say do not include LP (Pole)

152 - Was trailer, should've been truck. Should now be fixed.

159 - Was trailer, should've been truck. Should now be fixed.

164 - Was trailer, should've been truck. Should now be fixed.

175 - Was trailer, should've been truck. Should now be fixed.

I started responding to each test case in the second group, but I've noticed the errors fall into three categories:

1. Trucks that should've been trailers.
2. Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided.
3. Records were not appropriately being filtered when title was inactive.

I've fixed several (but probably not all) of the truck/trailer mismatches. I've added the necessary changes to the batch file code to restrict inactive records. This seems to have removed dozens of the failing records. Can you please verify again before we continue with narrower issues? Once I have confirmation on the registration restriction, I can add that if necessary.

Thank you,

This email comes from an external source, so remember, Think Before You Click!

Hi,

I notice following

There are records where the title issue date and title status is set to NULL, these cannot be set to NULL, these should have valid values

There are records with odometer reading of 000000000, we do not allow odometer reading of all zeros, either it has to be UNKNOWN or a valid numeric reading

When record has registration only and no title, the Registration issue date should be used as Title Issue Date and Plate number should be populated in the Title Number field.

I looked at the test results from back in 2010 and see that AK had used the odometer readings of UNKNOWN and EXEMPT

Thank You

Amir Chaudhry | Quality Assurance Lead | Work 703.908.2804 | Cell 703.459.7324

**NMVTIS Conference Call
November 15, 2017**

The purpose of the call was to provide updates on various aspects of the project. Present on the call: AZ, CA, FL, ID, IN, KY, MD, MI, MS, NE, ND, NH, NV, OH, OK, PA, TX, UT, VA, WA, WI, WV and AAMVA staff.

Upcoming State Implementations

This past weekend Arkansas did a full online implementation. Previously they were doing online inquiry and they were responding to unsolicited messages. Alaska is doing a rewrite of their online system. They will be implementing on December 2, 2017.

Junk & Salvage Reporting by Individuals – Go live

A few years ago as part of the Federal Advisory Committee there was a discussion between the stakeholders and the DOJ regarding individuals who are involved in the business of purchasing vehicles for parts or for the purpose of rebuilding and whether or not these individuals have an obligation to report to NMVTIS. It was felt that the reporting obligation has not been as clearly articulated in either the DOJ regulations or in any of the policy guidance.

At the end of that conversation it was determined that individuals engaged in the act of acquiring or owning junk or salvage automobiles for resale did have an obligation to report to NMVTIS. What we decided in conjunction with DOJ was to allow individuals to report their junk and salvage vehicle information to NMVTIS through the Direct Reporting Service Website maintained by AAMVA. The reporting service is now known as the Single VIN Reporting Service. The website was recently enhanced to accommodate reporting by individuals. The website was also upgraded with a new look and feel.

What this means to you is that the JSI information reported by individuals will appear in the output of all of the NMVTIS Inquiry Applications (i.e. SWI, Online) where JSI data is displayed. We have also established a new entity type “N” for individuals.

On Monday November 20th individuals can begin reporting their junk and salvage information to NMVTIS. Because there hasn’t been any promotion by the DOJ we anticipate not much reporting volume from individuals.

We encourage you to check out the redesigned Single VIN Reporting Service. Please do not register for the service. Here is the link:

<https://nmvtisreporting.aamva.org/Login.aspx?ReturnUrl=%2fwelcome.aspx>

Open Discussion:

Kentucky asks for an update on the five states not participating in NMVTIS

AAMVA – Oregon, Kansas and DC are currently in the software development phase.

State Funding Program Update

Vivienne - AAMVA put out a solicitation to states who were either not fully participating in NMVTIS or had not yet begun to participate to apply for funding. We have not yet awarded any grants to the States as a result of the solicitation. The recommendations were taken to our executive committee this week and they have asked for some additional information that we're in the process of gathering. Once we have that information we'll seek final approval from the DOJ.

Once we have the final approval the States will be contacted directly before we do any sort of public announcement. We know it's been taking a little longer than we had anticipated. For those states that applied for a grant we hope that it helps those states move forward in their development and implementation plans. So stay tuned for further updates.

Missing Texas Brand Records in NMVTIS

Tony - Over the Labor Day weekend we made a few system changes on our end which impacted a job that sends data over to our NMVTIS job for processing brands. The information indicating a vehicle as a Junk or Salvage was not getting send over to our MNVTIS Processing Module. That said, our junk and salvage brand records were not being sent to NMVTIS. About 175K brand records were not sent to NMVTIS. The good news is that the title records associated with the junk and salvage vehicles were sent to NMVTIS. If the vehicle was a flood damaged vehicle the flood damage brand did go to NMVTIS but not the accompanying the salvage or not repairable designation junk brands.

The issue has been fixed as of Monday 11/13. We are hoping to get the 175K brands added to NMVTIS next week. If anybody is interested in knowing how to identify a Texas salvage or not repairable vehicle it's going to be a pink title or burnt orange document. Both of the title documents start with a title number of 297. It's quite possible that when you see these documents they do not have a salvage or junk brand in NMVTIS.

Barb from Wisconsin – What do the pink title and burnt orange documents represent?

Tony – The pink title documents belong to salvage vehicles that can be repaired. The burnt orange documents belong to vehicles that are non-repairable or junk and should not be put back on the road.

Antique or Historic Vehicles

Tiffany from Maryland – It's my understanding that you do not have to send title records to NMVTIS for those vehicles that have a model year of 1981 or older?

Amir – True. But, any vehicle with a model year of 1981 or older with an active registration the title record should be sent to NMVTIS.

Tiffany from Maryland - We have a vehicle here in Maryland that we titled from a New York registration. However, there is no NY title for this vehicle in NMVTIS. What we see in NMVTIS is that Texas titled the vehicle from New Mexico. Who is to become the current state of title in NMVTIS for that VIN number?

Vivienne asks MD if they have verified the VIN. Tiffany says they are working with their investigative unit right now.

Amir – If the VINs is determined to be valid you would report the vehicle to NMVTIS just as you would report any other vehicle. Once you have added the title to NMVTIS Maryland would become the current state of title and the Texas record would be moved to title history.

Vivienne – We recommend that Maryland first get the VIN verification done to determine if you truly have the same vehicle that Texas has titled before you add the title record to NMVTIS. If you are still unclear please shoot an email to Neil or myself.

General Questions about Junk and Salvage Reporting

Karen from Ohio – So, individuals will begin reporting junk and salvage reporting on Monday. Correct?

Vivienne – Yes. Go Live Monday. These are the changes that we have made to the AAMVA Reporting Service website to support reporting by individuals.

Karen from Ohio – So the reports from individuals will be displayed in the same manner as the reports that are coming from Junk and Salvage Operators?

AAMVA – Yes. No changes to your system are required to receive this information. So where you would normally see a Company Name in the Entity Name Field, if the entity is an individual you would see a First and Last Name in the Entity Name Field.

Karen from Ohio – If a vehicle has been reported to NMVTIS then it is has been deemed to be Salvage or at least Junk. Is that correct?

Vivienne – As per the regulations, any entity that takes into their possession five or more vehicles annually that they deem junk or salvage, or in case of an insurance company if they deem the vehicle to be a “total loss”. Those businesses have an obligation to report those vehicles to NMVTIS. If the business had determined that the vehicle is not junk or salvage they should not be reporting the vehicle.

How you interpret the fact that the vehicle has been reported to NMVTIS is up to the state. I know for some states a JSI report on a vehicle indicates a need for an inspection. For other states a JSI report on a vehicle may indicate a need to place a “JUNK” brand on the vehicle. You decide how you want to use the JSI information in NMVTIS.

Karen from Ohio – That’s what we have been doing. Thank you for confirming what we have heard all along.

Rolene from Arizona – Follow-up question. Are there definitions for the Junk and Salvage vehicles in NMVTIS so I can see how they match-up with our definitions?

Vivienne – What I can point you to are the NMVTIS Regulations. The determination of a status of junk and salvage is made by the entity. Here are the definitions for Junk and Salvage vehicles and Total Loss from the Anti Car Theft Act:

Junk Automobile: An automobile that:

- (A) is incapable of operating on public streets, roads, and highways; and
- (B) Has no value except as a source of parts or scrap.

Salvage Automobile: An automobile that is damaged by collision, fire, flood, accident, trespass, or other event, to the extent that its fair salvage value plus the cost of repairing the automobile for legal operation on public streets, roads, and highways would be more than the fair market value of the automobile immediately before the event that caused the damage. Salvage automobiles include automobiles determined to be a total loss under the law of the applicable jurisdiction or designated as a total loss by an insurer under the terms of its policies, regardless of whether or not the ownership of the vehicle is transferred to the insurance carrier.

Total Loss: The cost of repairing such vehicles plus projected supplements plus projected diminished resale value plus rental reimbursement expense exceeds the cost of buying the damaged motor vehicle at its pre-accident value, minus the proceeds of selling the damaged motor vehicle for salvage.

These can be found on the NMVTIS Website: https://www.vehiclehistory.gov/nmvtis_glossary.html

Vivienne – One more thing. We are looking to enhance the NMVTIS Junk, Salvage and Insurance application. Thank you to all states that responded to the JSI survey we sent out last summer. We were looking for some input on the requirements. One of the things we would like to change is on the vehicle report from insurers. Instead of the insurers report having a disposition of salvage we would like to change this to total loss. We will provide you additional information on this topic once we get closer to implementation.

Open Discussion:

Kentucky asks for an update on the five states not participating in NMVTIS

AAMVA – Oregon, Kansas and DC are currently in the software development phase.

State Funding Program Update

Vivienne - AAMVA put out a solicitation to states who were either not fully participating in NMVTIS or had not yet begun to participate to apply for funding. We have not yet awarded any grants to the States as a result of the solicitation. The recommendations were taken to our executive committee this week and they have asked for some additional information that we're in the process of gathering. Once we have that information we'll seek final approval from the DOJ.

Once we have the final approval the States will be contacted directly before we do any sort of public announcement. We know it's been taking a little longer than we had anticipated. For those states that applied for a grant we hope that it helps those states move forward in their development and implementation plans. So stay tuned for further updates.

Missing Texas Brand Records in NMVTIS

Tony - Over the Labor Day weekend we made a few system changes on our end which impacted a job that sends data over to our NMVTIS job for processing brands. The information indicating a vehicle as a Junk or Salvage was not getting send over to our MNVTIS Processing Module. That said, our junk and salvage brand records were not being sent to NMVTIS. About 175K brand records were not sent to NMVTIS. The good news is that the title records associated with the junk and salvage vehicles were sent to NMVTIS. If the vehicle was a flood damaged vehicle the flood damage brand did go to NMVTIS but not the accompanying the salvage or not repairable designation junk brands.

The issue has been fixed as of Monday 11/13. We are hoping to get the 175K brands added to NMVTIS next week. If anybody is interested in knowing how to identify a Texas salvage or not repairable vehicle it's going to be a pink title or burnt orange document. Both of the title documents start with a title number of 297. It's quite possible that when you see these documents they do not have a salvage or junk brand in NMVTIS.

Barb from Wisconsin – What do the pink title and burnt orange documents represent?

Tony – The pink title documents belong to salvage vehicles that can be repaired. The burnt orange documents belong to vehicles that are non-repairable or junk and should not be put back on the road.

Antique or Historic Vehicles

Tiffany from Maryland – It's my understanding that you do not have to send title records to NMVTIS for those vehicles that have a model year of 1981 or older?

Amir – True. But, any vehicle with a model year of 1981 or older with an active registration the title record should be sent to NMVTIS.

Tiffany from Maryland - We have a vehicle here in Maryland that we titled from a New York registration. However, there is no NY title for this vehicle in NMVTIS. What we see in NMVTIS is that Texas titled the vehicle from New Mexico. Who is to become the current state of title in NMVTIS for that VIN number?

Vivienne asks MD if they have verified the VIN. Tiffany says they are working with their investigative unit right now.

Amir – If the VINs is determined to be valid you would report the vehicle to NMVTIS just as you would report any other vehicle. Once you have added the title to NMVTIS Maryland would become the current state of title and the Texas record would be moved to title history.

Vivienne – We recommend that Maryland first get the VIN verification done to determine if you truly have the same vehicle that Texas has titled before you add the title record to NMVTIS. If you are still unclear please shoot an email to Neil or myself.

General Questions about Junk and Salvage Reporting

Karen from Ohio – So, individuals will begin reporting junk and salvage reporting on Monday. Correct?

Vivienne – Yes. Go Live Monday. These are the changes that we have made to the AAMVA Reporting Service website to support reporting by individuals.

Karen from Ohio – So the reports from individuals will be displayed in the same manner as the reports that are coming from Junk and Salvage Operators?

AAMVA – Yes. No changes to your system are required to receive this information. So where you would normally see a Company Name in the Entity Name Field, if the entity is an individual you would see a First and Last Name in the Entity Name Field.

Karen from Ohio – If a vehicle has been reported to NMVTIS then it is has been deemed to be Salvage or at least Junk. Is that correct?

Vivienne – As per the regulations, any entity that takes into their possession five or more vehicles annually that they deem junk or salvage, or in case of an insurance company if they deem the vehicle to be a “total loss”. Those businesses have an obligation to report those vehicles to NMVTIS. If the business had determined that the vehicle is not junk or salvage they should not be reporting the vehicle.

How you interpret the fact that the vehicle has been reported to NMVTIS is up to the state. I know for some states a JSI report on a vehicle indicates a need for an inspection. For other states a JSI report on a vehicle may indicate a need to place a “JUNK” brand on the vehicle. You decide how you want to use the JSI information in NMVTIS.

Karen from Ohio – That’s what we have been doing. Thank you for confirming what we have heard all along.

Rolene from Arizona – Follow-up question. Are there definitions for the Junk and Salvage vehicles in NMVTIS so I can see how they match-up with our definitions?

Vivienne – What I can point you to are the NMVTIS Regulations. The determination of a status of junk and salvage is made by the entity. Here are the definitions for Junk and Salvage vehicles and Total Loss from the Anti Car Theft Act:

Junk Automobile: An automobile that:

- (A) is incapable of operating on public streets, roads, and highways; and
- (B) Has no value except as a source of parts or scrap.

Salvage Automobile: An automobile that is damaged by collision, fire, flood, accident, trespass, or other event, to the extent that its fair salvage value plus the cost of repairing the automobile for legal operation on public streets, roads, and highways would be more than the fair market value of the automobile immediately before the event that caused the damage. Salvage automobiles include automobiles determined to be a total loss under the law of the applicable jurisdiction or designated as a total loss by an insurer under the terms of its policies, regardless of whether or not the ownership of the vehicle is transferred to the insurance carrier.

Total Loss: The cost of repairing such vehicles plus projected supplements plus projected diminished resale value plus rental reimbursement expense exceeds the cost of buying the damaged motor vehicle at its pre-accident value, minus the proceeds of selling the damaged motor vehicle for salvage.

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Nevada DMV: Use DMV Appointments and Alternative Services to Avoid 'Black Monday'

The Nevada DMV is asking the public to use appointments, online services and kiosks to avoid long wait times before and after the upcoming Thanksgiving holiday. The Monday after Thanksgiving, informally called "Black Monday," is the busiest day of the year for the DMV. The days prior to the four-day Thanksgiving break and the entire week after are also unusually busy. The DMV website, dmvnev.com, offers nearly two dozen online transactions including address changes, driver history printouts, personalized plate orders and even original registration for vehicle purchase from a Nevada dealer.

California: Fraudulent Use of Disabled Parking Placards Results in 135 Citations

Investigators with the California Department of Motor Vehicles (DMV) issued misdemeanor citations to 135 people caught fraudulently using disabled person parking placards during 23 enforcement operations in October 2017. Offenders must appear in court to face possible fines that range from \$250 to \$1,000. The DMV carries out numerous enforcement operations every month throughout the state in an effort to reduce the impact that disabled person parking placard fraud has on the mobility of those with disabilities. It is important to note that some qualifying disabilities are not visually apparent and allegations of misuse may be unfounded. [Read more here.](#)

FEDERAL NEWS

NTSB: Highway Deaths Lead National Increase in Transportation Fatalities

Data released by the National Transportation Safety Board revealed 2,030 more people died in transportation accidents in 2016 than in 2015, with highway fatalities accounting for 95 percent of all transportation fatalities in 2016. The data indicate 39,339 people lost their lives in transportation accidents in 2016, compared to 37,309 who died in 2015. In addition to the increase in highway fatalities, increases were also seen in the marine and railroad sectors, with a slight decrease in aviation fatalities. [Read more here.](#)

Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Nevada DMV: Use DMV Appointments and Alternative Services to Avoid 'Black Monday'

The Nevada DMV is asking the public to use appointments, online services and kiosks to avoid long wait times before and after the upcoming Thanksgiving holiday. The Monday after Thanksgiving, informally called "Black Monday," is the busiest day of the year for the DMV. The days prior to the four-day Thanksgiving break and the entire week after are also unusually busy. The DMV website, dmvnev.com, offers nearly two dozen online transactions including address changes, driver history printouts, personalized plate orders and even original registration for vehicle purchase from a Nevada dealer.

California: Fraudulent Use of Disabled Parking Placards Results in 135 Citations

Investigators with the California Department of Motor Vehicles (DMV) issued misdemeanor citations to 135 people caught fraudulently using disabled person parking placards during 23 enforcement operations in October 2017. Offenders must appear in court to face possible fines that range from \$250 to \$1,000. The DMV carries out numerous enforcement operations every month throughout the state in an effort to reduce the impact that disabled person parking placard fraud has on the mobility of those with disabilities. It is important to note that some qualifying disabilities are not visually apparent and allegations of misuse may be unfounded. [Read more here.](#)

FEDERAL NEWS

NTSB: Highway Deaths Lead National Increase in Transportation Fatalities

Data released by the National Transportation Safety Board revealed 2,030 more people died in transportation accidents in 2016 than in 2015, with highway fatalities accounting for 95 percent of all transportation fatalities in 2016. The data indicate 39,339 people lost their lives in transportation accidents in 2016, compared to 37,309 who died in 2015. In addition to the increase in highway fatalities, increases were also seen in the marine and railroad sectors, with a slight decrease in aviation fatalities. [Read more here.](#)

Nevada DMV: Use DMV Appointments and Alternative Services to Avoid 'Black Monday'

The Nevada DMV is asking the public to use appointments, online services and kiosks to avoid long wait times before and after the upcoming Thanksgiving holiday. The Monday after Thanksgiving, informally called "Black Monday," is the busiest day of the year for the DMV. The days prior to the four-day Thanksgiving break and the entire week after are also unusually busy. The DMV website, dmv.nv.com, offers nearly two dozen online transactions including address changes, driver history printouts, personalized plate orders and even original registration for vehicle purchase from a Nevada dealer.

California: Fraudulent Use of Disabled Parking Placards Results in 135 Citations

Investigators with the California Department of Motor Vehicles (DMV) issued misdemeanor citations to 135 people caught fraudulently using disabled person parking placards during 23 enforcement operations in October 2017. Offenders must appear in court to face possible fines that range from \$250 to \$1,000. The DMV carries out numerous enforcement operations every month throughout the state in an effort to reduce the impact that disabled person parking placard fraud has on the mobility of those with disabilities. It is important to note that some qualifying disabilities are not visually apparent and allegations of misuse may be unfounded. [Read more here.](#)

FEDERAL NEWS

NTSB: Highway Deaths Lead National Increase in Transportation Fatalities

Data released by the National Transportation Safety Board revealed 2,030 more people died in transportation accidents in 2016 than in 2015, with highway fatalities accounting for 95 percent of all transportation fatalities in 2016. The data indicate 39,339 people lost their lives in transportation accidents in 2016, compared to 37,309 who died in 2015. In addition to the increase in highway fatalities, increases were also seen in the marine and railroad sectors, with a slight decrease in aviation fatalities. [Read more here.](#)

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, November 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

Investigators with the California Department of Motor Vehicles (DMV) issued misdemeanor citations to 135 people caught fraudulently using disabled person parking placards during 23 enforcement operations in October 2017. Offenders must appear in court to face possible fines that range from \$250 to \$1,000. The DMV carries out numerous enforcement operations every month throughout the state in an effort to reduce the impact that disabled person parking placard fraud has on the mobility of those with disabilities. It is important to note that some qualifying disabilities are not visually apparent and allegations of misuse may be unfounded. [Read more here.](#)

NTSB: Highway Deaths Lead National Increase in Transportation Fatalities

Data released by the National Transportation Safety Board revealed 2,030 more people died in transportation accidents in 2016 than in 2015, with highway fatalities accounting for 95 percent of all transportation fatalities in 2016.

The data indicate 39,339 people lost their lives in transportation accidents in 2016, compared to 37,309 who died in 2015. In addition to the increase in highway fatalities, increases were also seen in the marine and railroad sectors, with a slight decrease in aviation fatalities. [Read more here.](#)

documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 2](#)

Wednesday, November 29, 2017, 2:00 - 3:00 pm (ET)

Prerequisite: NMVTIS Suspense Resolution for Online States (AMIE Version) – Part 1

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Nevada DMV: Use DMV Appointments and Alternative Services to Avoid 'Black Monday'

The Nevada DMV is asking the public to use appointments, online services and kiosks to avoid long wait times before and after the upcoming Thanksgiving holiday. The Monday after Thanksgiving, informally called "Black Monday," is the busiest day of the year for the DMV. The days prior to the four-day Thanksgiving break and the entire week after are also unusually busy. The DMV website, dmv.nv.com, offers nearly two dozen online transactions including address changes, driver history printouts, personalized plate orders and even original registration for vehicle purchase from a Nevada dealer.

Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

JURISDICTION NEWS

Nevada DMV: Use DMV Appointments and Alternative Services to Avoid 'Black Monday'

The Nevada DMV is asking the public to use appointments, online services and kiosks to avoid long wait times before and after the upcoming Thanksgiving holiday. The Monday after Thanksgiving, informally called "Black Monday," is the busiest day of the year for the DMV. The days prior to the four-day Thanksgiving break and the entire week after are also unusually busy. The DMV website, dmvnev.com, offers nearly two dozen online transactions including address changes, driver history printouts, personalized plate orders and even original registration for vehicle purchase from a Nevada dealer.

California: Fraudulent Use of Disabled Parking Placards Results in 135 Citations

Investigators with the California Department of Motor Vehicles (DMV) issued misdemeanor citations to 135 people caught fraudulently using disabled person parking placards during 23 enforcement operations in October 2017. Offenders must appear in court to face possible fines that range from \$250 to \$1,000. The DMV carries out numerous enforcement operations every month throughout the state in an effort to reduce the impact that disabled person parking placard fraud has on the mobility of those with disabilities. It is important to note that some qualifying disabilities are not visually apparent and allegations of misuse may be unfounded. [Read more here.](#)

FEDERAL NEWS

NTSB: Highway Deaths Lead National Increase in Transportation Fatalities

Data released by the National Transportation Safety Board revealed 2,030 more people died in transportation accidents in 2016 than in 2015, with highway fatalities accounting for 95 percent of all transportation fatalities in 2016. The data indicate 39,339 people lost their lives in transportation accidents in 2016, compared to 37,309 who died in 2015. In addition to the increase in highway fatalities, increases were also seen in the marine and railroad sectors, with a slight decrease in aviation fatalities. [Read more here.](#)

Report: Assuring the Safety of Automated Vehicles

The National Transport Commission in Australia has released a report that outlines a high-level design for a safety assurance system for automated vehicles in Australia. This report identifies key steps to implement the safety assurance system by 2020, including legislative and registration changes. [Read more here.](#)

Subject: AK delay of implementation

Good morning,

As I mentioned last week, Alaska is delaying our go-live transition date by 7 weeks, to go live the weekend of January 20. We will not be changing UNI during this time - it's delayed due to issues with our workstation services, reporting, and some internal UI issues. We need to know if we will have to re-do the PDPS and SPEXS smoke test since we will have this delay.

Regards,

Mina Peters

Subject: Vehicle importing and exporting challenges - webinar opportunity

Good morning,

Since vehicle imports has been a topic of interest for about the last year I wanted to ensure you saw the upcoming AAMVA webinar. If you or your staff are interested please register on the AAMVA webinar page. If you have any questions, please don't hesitate to contact me. Thanks

Title: Vehicle Importing & Exporting Challenges: Law Enforcement and Motor Vehicle Agency Resources

Date: Tuesday, December 12, 2017

Time: 1:00 - 2:00 pm (ET)

Speakers: Paul Steier, Law Enforcement Program Manager, AAMVA
Betty Johnson, Administrator, Nebraska DMV
Lauran Barkley-McKeeman, Document Verification Specialist, Ontario Ministry of Transportation
Dale Bannerman, Senior Investigator, Service Alberta
Darren Hodson, Assistant Director, Service Alberta
Keri Lawler, Intelligence Analyst, Colorado State Patrol
Jim Spiller, Chairman, National Vehicle Service
Dennis Frias, Director of Law Enforcement Relations, Locator Technologies

Description: As vehicles move in and out of countries, law enforcement and motor vehicle agencies are tasked with identifying vehicle ownership and status, as well as investigating potential crimes. The importing and exporting of these vehicles can involve a variety of fraud and unscrupulous activities and provide challenges to motor vehicle agencies for vehicle title and registration processing. There are resources for law enforcement officers and DMV investigators to enhance their knowledge in the detection and investigation of these crimes. Also, motor vehicle agencies have opportunities for proactive procedures to assist in enhancing vehicle title and registration programs. This webinar will cover the following areas: examples of procedures for motor vehicle agencies to title and/or register imported vehicles; types of vehicle import and export crimes occurring today; investigative resources and techniques to assist in the investigation of these crimes; and networking contacts to enhance law enforcement and motor vehicle agency efforts. This webinar is for law enforcement officers and DMV investigators who work vehicle title and registration fraud cases or that may encounter vehicles being imported or exported. This webinar is also for motor vehicle agency staff responsible for administering vehicle titling and registration programs and for staff who process applications for such.

Register Now: Note: This webinar is for AAMVA jurisdiction and federal members only. If you are a member and wish to register for this webinar, please login to the site, and go to the [Members Only webinars page here](#).

Subject: Contact for Oregon

Hello,

We have a customer who is trying to title their vehicle in Alaska, but according to our records the vehicle was titled in Oregon. The customer is now returning with the Alaska title that should have been surrendered to Oregon. Do you by chance have a contact in Oregon that we can call or email to verify if the vehicle was really titled in Oregon.

Thanks!

Subject: National Driver Register Cleanfile - December 17, 2017

The National Driver Register will conduct a Cleanfile on December 17, 2017.

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by December 6, 2017, and plan to send your file to NDR no later than December 13, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Agenda 2017112...

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 11/29/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Implementation date has been extended to January 22, 2018.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	
David Nolen	Alaska	√	
Dillon Pressley	Alaska – Resource Data	√	
Joshua Shoemaker	Alaska – Resource Data	√	
Gary Tancik	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	
Sam Amaya	AAMVA, Project Director	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Initial Load Testing
- Initial Load Dry Run
- Implementation
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Identify a state that will test unsolicited messages on 12/2/2017	Susan Creighton	11/24/2017	Complete
Send 5 VINs that can be used for response time dry run in CERT	AK	11/16/2017	Complete
Perform response time dry run in CERT using the VINs that AK sends	Susan Creighton	11/24/2017	Complete

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

Date: (MM/DD/CCYY)	12/6/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting

Workspace: CDLIS Problem Tracking

Problem: Alaska's Monthly Timeliness and Data Accuracy For CDLIS Messages Review

Problem Number:890

Status: Analysis **Date:** 11/29/2017
Time: 13:32:39 **Creation Date:**07/31/2015
Creation Time:11:27:54 **Created By:** JShifflett

This is a Master Problem with Subtasks.

Progress:

Entered on 11/29/2017 at 13:32:39 EST (GMT-0500) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by **December 12th** with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **October** data, AAMVA noticed the following issues:

CDLIS Data Quality of Convictions

- Alaska had a 13.33% error rate (2 out of 15) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (12 out of 12) Withdrawal (HW) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 42.86% error rate (3 out of 7) Delete Driver (UE) messages

Please find the October monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 10 October CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction, Withdrawal or Pointer Deletion messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va. 22203 | 703.908.8264 | jrogers@aamva.org | www.aamva.org

Entered on 08/28/2017 at 13:02:48 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by September 11th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **July** data, AAMVA noticed the following issues:

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (6 out of 6) Withdrawal (HW) messages

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 18.46% overall error rate (48 out of 260) Updates to MPR Personally Identifiable Information

CDLIS Data Quality of Pointer Deletions

- Alaska had a 35% error rate (7 out of 20) Delete Driver (UE) messages

Please find the July monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 07 July CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal, Updates to MPR PII or Pointer Deletion messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va. 22203 | 703.908.8264 | jrogers@aamva.org | www.aamva.org

Entered on 08/29/2016 at 14:18:18 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to

understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by September 12th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **July** data, AAMVA noticed the following issues:

CDLIS Timeliness of Withdrawals Sent Successfully

- Alaska sent 0% of its successful Report Out-of-State Withdrawals (HW) transactions (0 out of 2) within the federal time limit of 10 days

CDLIS Data Quality of Withdrawals

- Alaska had a 42.86% error rate (3 out of 7) Withdrawal (HW) messages

Please find the July monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 07 July CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:
Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham

According to MAP-21, States are required to be green by September 2015. Your SDLA should have resolved all the CDLIS issues. Your SDLA is expected to reply to this message by October 15th with an analysis of the issues noted and a plan to address them. This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported. If you need any help to develop the plan, please let us know.

In our review for the **August** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 6.67% of its successful Report Out-of-State Convictions (HA) transactions (6 out of 90) within the federal time limit of 10 days

CDLIS Data Quality of Convictions

- Alaska had a 18.90% error rate (24 out of 127) Conviction (HA) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 22.22% error rate (2 out of 9) Delete Driver (UE) messages

Please find the August monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2015 08 August CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Convictions or Pointer Deletion messages.

Thanks,

Progress:

Entered on 11/29/2017 at 13:32:39 EST (GMT-0500) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by **December 12th** with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **October** data, AAMVA noticed the following issues:

CDLIS Data Quality of Convictions

- Alaska had a 13.33% error rate (2 out of 15) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (12 out of 12) Withdrawal (HW) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 42.86% error rate (3 out of 7) Delete Driver (UE) messages

Please find the October monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 10 October CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction, Withdrawal or Pointer Deletion messages.

Thanks,

Entered on 02/27/2017 at 14:20:15 EST (GMT-0500) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by March 13th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **January** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 60% of its successful Report Out-of-State Convictions (HA) transactions (3 out of 5) within the federal time limit of 10 days

CDLIS Data Quality Updates to MPR Personally Identifiable Information

- Alaska had a 19.83% overall error rate (71 out of 358) Updates to MPR Personally Identifiable Information

Please find the January monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 01 January CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction or Updates to MPR PII messages.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 01/28/2016 at 13:30:39 EST (GMT-0500) by Jessie Rogers:

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by February 11th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **December** data, AAMVA noticed the following issues:

CDLIS Timeliness of Convictions Sent Successfully

- Alaska sent 5% of its successful Report Out-of-State Convictions (HA) transactions (2 out of 40) within the federal time limit of 10 days

Please find the December monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2015 12 December CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:

Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham

Progress:

Entered on 11/29/2017 at 13:32:39 EST (GMT-0500) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by **December 12th** with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **October** data, AAMVA noticed the following issues:

CDLIS Data Quality of Convictions

- Alaska had a 13.33% error rate (2 out of 15) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 100% error rate (12 out of 12) Withdrawal (HW) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 42.86% error rate (3 out of 7) Delete Driver (UE) messages

Please find the October monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 10 October CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Conviction, Withdrawal or Pointer Deletion messages.

Entered on 06/28/2017 at 14:33:58 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by July 14th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **May** data, AAMVA noticed the following issues:

CDLIS Timeliness of Withdrawals Sent Successfully

- Alaska sent 50% of its successful Report Out-of-State Withdrawals (HW) transactions (1 out of 2) within the federal time limit of 10 days

CDLIS Data Quality of Convictions

- Alaska had a 100% error rate (2 out of 2) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 66.67% error rate (6 out of 9) Withdrawal (HW) messages

CDLIS Data Quality of Pointer Deletions

- Alaska had a 43.48% error rate (10 out of 23) Delete Driver (UE) messages

Please find the May monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2017 05 May CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal, Conviction or Pointer Deletion messages.

Thanks,

Entered on 06/27/2016 at 16:30:34 EDT (GMT-0400) by Jessie Rogers:

Good afternoon,

According to MAP-21, States are required to resolve all CDL compliance findings by September 30, 2015, and to provide assurances that the State will remain in compliance through the next fiscal year ending in September 2016. Now that September 30, 2015 has passed, it becomes even more important for your SDLA to understand and resolve persistent CDLIS problems that could lead to compliance findings. AAMVA and FMCSA developed this report to assist your SDLA in identifying and resolving potential CDLIS problems before they become compliance findings.

Your SDLA is expected to reply to this message by July 14th with an analysis of the issues noted and a plan to address them. The response from the SDLA is helpful to gain a better understanding of how AAMVA can assist the SDLA in correcting these specific CDLIS issues. Please note that this is not a compliance report, but a tool to help States be more proactive in fixing their issues.

This problem ticket and sub-tickets for each tab in red will remain open until your State fixes the problems being reported (state remains green for three consecutive months).

In our review for the **May** data, AAMVA noticed the following issues:

CDLIS Timeliness of Withdrawals Sent Successfully

- Alaska sent 0% of its successful Report Out-of-State Withdrawals (HW) transactions (0 out of 1) within the federal time limit of 10 days

CDLIS Data Quality of Convictions

- Alaska had a 20% error rate (5 out of 1) Conviction (HA) messages

CDLIS Data Quality of Withdrawals

- Alaska had a 33.33% error rate (3 out of 1) Withdrawal (HW) messages

Please find the May monthly CDLIS Timeliness, Data Quality, and Capabilities report attached:

- 2016 05 May CDLIS Timeliness and Accuracy- Summary Workbook

If you need additional information, please let us know. For example, we can send you more detailed information on the Withdrawal or Conviction messages.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/16/2015 at 10:41:44 EDT (GMT-0400) by JShifflett:

Good morning,

Thank you for your response on these errors. AAMVA recommends that AK continue working with the courts to let them know how important it is to report the convictions within the required time and with the correct information.

For the data quality issues, hopefully we see AK become green due to the changes in staff refining error correction processes to reduce unnecessary correction attempts. AAMVA also recommends the AAMVA Systems Training which aims to develop education, training and learning opportunities that meet the needs of AAMVA's membership in the use of all the systems and procedures to ensure commercial driver safety and compliance with Federal regulations. **NOTE:** All courses are **free** for AAMVA members. Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

We will monitor this tab and the others to see if AK improves. Once Alaska is green for three consecutive months in each tab, we will close that sub ticket for the tab.

Thanks,

Jessie Rogers | Reporting Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Entered on 10/15/2015 at 13:16:39 EDT (GMT-0400) by Nichole Tham:

Good afternoon,

Thank you for this notification. Both DMV and FMCSA are aware of the issues noted in the report and DMV is actively working to resolve them. Some factors contributing to the Timeliness/Quality Errors:

The Timeliness Errors are due to staff diligently working the backlog of E-Dispo records that were not reported to DMV by the courts. These will continue to be high until that backlog is caught up. Part of this delay is attributed to the lack of distinction between CDL/non-CDL citations; additional steps are required to identify and manually update CDL citations/pointers in CDLIS, which significantly slows the process. Although DMV has expressed the need for the Department of Public Safety (DPS) to add a "CDL Indicator" to citation forms, both DPS and the Alaska Court System (ACS) has deemed it impracticable. Staff must continue to manually decipher each out of state license record to see if it is a CDL.

The Quality Errors are in part because there has been a large learning curve for staff, and because AAMVA reports multiple attempts to submit the same record as separate errors, which skews the percentages. Staff are refining error correction processes to reduce unnecessary correction attempts which should reduce error compounding overall.

Sincerely,

Nichole Tham

Subject: RE: AK NMVTIS - Batch Initial Load

Hi Dillon,

So let me clarify before I re-check the results. You are now saying that any vehicle with title status of TITLE ONLY would not have any active registration. So is the registration status for such vehicles is set to blank of Expired or no registration record on DB?

Thank You

Amir Chaudhry | Quality Assurance Lead | Work 703.908.2804 | Cell 703.459.7324

Subject: Re: AK NMVTIS - Batch Initial Load

Hello Amir,

I've investigated the test case you pointed out. After your previous validation, you asked us to include the following (now highlighted) pre-1981 "Title Only – current" test cases:

Following test cases failed because I was expecting them but these were not reported

5
77
78
80
93
98
149
150
161

172
177
185
230

Overall, there are thirteen pre-1981 “Title Only – current” test cases, as shown in the following screenshot:

	A	B	D	E	F	G
	TC#	Vehicle Type	Title Status	Reg Status	Model Year	State Brand
1						
6	005	4D-Sedan, 4 Door	Title Only - current		<=1980	
36	035	CI-Corn Picker	Title Only - current		<=1980	
78	077	GN-Grain, truck	Title Only - current		<=1980	
79	078	GR-Glass Rack	Title Only - current		<=1980	
81	080	HB-Hatchback (3 door & 5 door)	Title Only - current		<=1980	
92	091	LF-Lift Boom	Title Only - current		<=1980	
94	093	LL-Carry-All / SUV	Title Only - current		<=1980	
97	096	LP-Pole	Title Only - current	expired	<=1980	
112	111	PK-Pickup	Title Only - current	expired	<=1980	
119	118	PK-Pickup	Title Only - current		<=1980	
151	150	SW-Station Wagon	Title Only - current		<=1980	
178	177	AM-Ambulance	Title Only - current		<=1980	REC -
199	198	41-Commercial Truck: 5,000 lbs. & Under	Title Only - current		<=1980	
294						
295		Note: All Duplicate - history records were changed to Title and Reg- Current records were changed to Title and Reg- Cu				
296						
297						

Of these thirteen test cases, 035 and 096 were excluded due to their Vehicle Type. The other eleven, including test case 111, were all included in the last execution. I believe the ambiguity here is due to the column “Reg Status”. My understanding is that, by definition, no vehicle can have an active registration alongside a title issued as “Title Only”. It is also my understanding that titles should not be reported for pre-1981 vehicles without an active registration. I’ve made the appropriate changes to exclude such records. As a result, there are now eleven fewer title records. This implementation also perfectly matches the check we make in our “Title Only” title issuance process.

Also, there is now one fewer result in the brand file. You mentioned previously that case 158, a trailer variant of “TN – Tanker”, was included when you were not expecting it. This was another instance of a truck class being supplied instead of a trailer class, and the class has been corrected.

Please let me know if I’m somehow mistaken in my understanding that all 11 of the records should be excluded.

Thank you,

Hi,

I checked the results, much better now, only 1 test case seems to fail. Test Case 111, I am not expecting it but I received it in the file.

If you have a good explanation for it we may skip re-test for it.

Thank You

Hello Amir,

Your results have revealed two bugs in my implementation. Records with inactive titles were not appropriately excluded, and active "TITLE ONLY" records with old model years were inappropriately excluded due to their inherent lack of registration. I've addressed these issues and checked every conflict listed to ensure each has been resolved. Please find attached the latest output. I will forward these files to Dave Monroe and ask him to upload the files through file transfer.

If you'd still like to meet, I'm available any time from now through Wednesday evening.

Hello Amir,

Here's the latest execution. I've added checks for being an NMVTIS vehicle type, and either 1981+ Model Year or current registration status. These results should be considerably better.

Thank you,

Subject: RE: AK NMVTIS - Batch Initial Load

This email comes from an external source, so remember, Think Before You Click!

Hi Dillon,

This requirement is in the batch spec in section 8.3.

VIN POINTER FILE Description

In addition to the vehicle type include/exclude criteria noted above, other rules also restrict what vehicles are added to the VIN Pointer File. Vehicles that, as a group, have non-standard VINs will be excluded from the VIN Pointer File (non-standard VINs do not adhere to the format defined in the Final Rule on Vehicle Identification Number Requirements provided by the Department of Transportation, National Highway Traffic Safety Administration). As an example, golf carts are considered recreational vehicles (a vehicle type on the "include" list), but golf carts will not be placed on the VIN Pointer File because they are typically assigned non-standard VINs.

In addition, the VIN Pointer will only contain titles for vehicles that meet at least one of the following criteria:

- Vehicle has an active registration and an active title;
- Vehicle has an active title and the vehicle has a model year of 1981 or later or
- Vehicle has an active registration and the registration is the proof of ownership.

An active title is one that the jurisdiction considers to represent current ownership of a vehicle. The jurisdiction maintains current data regarding the title, and ownership is negotiable based on the title. A title becomes inactive if the vehicle is retitled by another jurisdiction (the new jurisdiction now has the active title and the title in the old jurisdiction is inactive). A title also becomes inactive when a jurisdiction marks the title record as purged (or a similar status) so that the jurisdiction no longer considers the title record to represent current ownership of the vehicle. Regardless, states should not provide the central site title records that are inactive.

Model year restrictions were applied because of the high incidence of nonstandard VIN duplicates on pre-1981 vehicles. During the pilot, counts of duplicate VINs from 1981 and earlier were in the range of 30 percent, while the count of duplicate VINs from 1982 and later was between two and five percent.

The rules above exclude vehicles that:

- Have been garaged, and

- Have an active registration only, but the registration is not the proof of ownership (the vehicle will be added to the VIN Pointer File by the state having the active title).

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - Batch Initial Load

Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided. **Yes, if vehicle model year is pre-1981 and if it does not have active registration then it should NOT be reported to NMVTIS.**

Can you please ensure this rule is enforced and send me the files again so I can verify

Thank You

Subject: Re: AK NMVTIS - Batch Initial Load

Hello Amir,

I've responded to all of the test cases in this group:

Following test cases I was expecting data but did not get the data

002 - This record was sent. The title can be found on line 38 and the brand on line 8 of the previous execution, or 39 and 8 of the current execution.

096 - Vehicle Type Map say do not include LP (Pole)

152 - Was trailer, should've been truck. Should now be fixed.

159 - Was trailer, should've been truck. Should now be fixed.

164 - Was trailer, should've been truck. Should now be fixed.

175 - Was trailer, should've been truck. Should now be fixed.

I started responding to each test case in the second group, but I've noticed the errors fall into three categories:

1. Trucks that should've been trailers.
2. Have expired registration. Are we doing the "pre-1980 and not registered" exclusion that occurs during normal operations? I can't find these rules in either the spreadsheet or the documentation previously provided.
3. Records were not appropriately being filtered when title was inactive.

I've fixed several (but probably not all) of the truck/trailer mismatches. I've added the necessary changes to the batch file code to restrict inactive records. This seems to have removed dozens of the failing records. Can you please verify again before we continue with narrower issues? Once I have confirmation on the registration restriction, I can add that if necessary.

Thank you,

Hi,

I notice following

There are records where the title issue date and title status is set to NULL, these cannot be set to NULL, these should have valid values

There are records with odometer reading of 000000000, we do not allow odometer reading of all zeros, either it has to be UNKNOWN or a valid numeric reading

When record has registration only and no title, the Registration issue date should be used as Title Issue Date and Plate number should be populated in the Title Number field.

I looked at the test results from back in 2010 and see that AK had used the odometer readings of UNKNOWN and EXEMPT

Thank You

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 11/29/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Implementation date has been extended to January 22, 2018.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	
David Nolen	Alaska	√	√
Dillon Pressley	Alaska – Resource Data	√	√
Joshua Shoemaker	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	√
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	√
Sam Amaya	AAMVA, Project Director	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Initial Load Testing
- Initial Load Dry Run
- Implementation
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

AK has provided another set of initial load test files and Amir is in the process of validating. Results will be sent to AK no later than tomorrow. Title Status of "Title Only" will never have registration so if the vehicle model year is 1981 or later and the vehicle type is an included NMVTIS vehicle, AK should send the records but if the vehicle model year is prior to 1981 then AK should not include these records in the initial load.

Once the initial load structured testing is complete we will need to do the Initial Load Dry Run with all the production data. Dillon will check with Patrick to see when they will be able to work on the initial load dry run and how that will fit into their timeline.

Since AK is not actually performing an initial load and the initial load programs are being developed for use in the data sync process as well as for disaster recovery, if for some reason we cannot complete the initial load testing in time for this implementation, we should be able to allow that to be finished afterwards with AAMVA management approval.

AK has postponed the implementation until January 22, 2018. An announcement was sent to NMVTIS states letting them know the implementation has been postponed since an announcement had already gone out regarding the December 4th implementation date. This gives us more time to complete the tasks in the plan so AAMVA will update but AK can go ahead and send their contact information when they are ready. Susan has lined up VA to work with us and they are fine with the date change. AK will be implementing all applications including drivers so there will also be coordination with the other teams.

NEXT STEPS:

Finish structured testing the initial load process

Initial Load dry run test

Implementation tasks

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Finish validation and sent results to AK for the latest initial load files	Amir Chaudhry	11/30/2017	In progress
Provide timeline for initial load dry run	AK		Open

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

Date: (MM/DD/CCYY)	12/6/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting

To: Peters, Mina L (DOA); Syeda, Asma
Subject: RE: AK delay of implementation

Good morning, Mina.

I meant to respond earlier to this email and apologize for the delay.

Thank you for letting us know about the delay in your Implementation. As you know, ideally we request that Jurisdictions implement the Structured tested changes to Production within 6 weeks of completing the Structured test. That said, we understand that there are other delays due to which the Implementation does not happen within that 6 weeks. In AK's case, AK completed the Structured test for all applications on 9/26/17, that makes it about In AK originally completed the Structured test on Sept 26th, which makes it about 16 weeks (almost 3 ½ - 4 months) since you completed the Structured test. Typically, with such a huge time delay between the Structured test and Implementation, we require that Jurisdictions perform a complete End to End pass of the Structured test. That is jurisdictions execute ALL the driver streams as they would in an End to End pass with the expectation it would be a clean run. In case of any issues that arise during this execution phase, we would have to discuss further testing needed.

That said, AK completed a smoke test in November with the AK gap code and there have been no issues of the select driver streams we executed during the smoke test. Keeping that in mind, I propose that you do a little more than what we did during the smoke test but not all the driver streams for SPEXS and PDPS. We will review the Test plans and propose the driver streams to be executed for this phase of testing.

Would you be able to let me know when you would be ready to perform this testing?

Please let us know so we can send you the details of the testing.

Thank you.

Subject: AK delay of implementation

Good morning,

As I mentioned last week, Alaska is delaying our go-live transition date by 7 weeks, to go live the weekend of January 20. We will not be changing UNI during this time - it's delayed due to issues with our workstation services, reporting, and some internal UI issues. We need to know if we will have to re-do the PDPS and SPEXS smoke test since we will have this delay.

Subject: RE: AK delay of implementation

Hi Sruti,

Thank you for the reply. It's hard to answer your question without knowing how much more is going to be added to the smoke test. Our last SPEX/PDPS combined smoke test took a little over a week. Would 2 weeks be sufficient time? I also know you don't want to do it too early, either, so it's hard to find that sweet spot. And of course, the closer we come to go-live, the less available our resources will be, also.

So, my question to you is, how early will you allow us to do this extended smoke test? Would January 2 be too soon?

Subject: Region 4 Committee Opportunity
Attachments: '17-18 R-IV Conference Committee Roster 11-29-17.doc; R-IV Committee Guide 12-1-17.doc

Hello,

Hope you have had a great week thus far!

On behalf of the Region IV Board of Directors, I'm emailing today to advise of an opportunity to become a Region IV committee member and to participate in the planning of Region IV conferences.

We are looking to fill the following committee vacancy:

- Vice-Chair – Vehicles Registration and Title

Expectations are to assist with the planning of the Region IV conference agenda including participation in conference calls and work behind the scenes to identify and secure speakers. Committee members are also expected to attend the Regional Conference and travel expenses to the conference will be covered by the Region. We will be meeting in Big Sky, Montana in July 2018.

I've attached a listing of current Committee members in case you want to reach out to learn more. I've also attached a copy of the Region IV Committee Guide which provides details on expectations.

I am confident current and past Committee members will tell you that they have found serving on the committee to be both an informative and rewarding experience.

If you are interested in volunteering or know of potentially interested candidates, please send your resume to me no later than December 15th. Please ensure you have your Director's support before volunteering.

I am of course happy to answer any questions you may have. Feel free to pass this on to anyone I may have missed or believe would be interested.

Thanks much!
Julie

American Association of
Motor Vehicle Administrators

Region IV Committee Chair and Vice-Chair Expectations

Created December, 2011

Revised December, 2012

Table of Contents

1.0 INTRODUCTION.....1

2.0 THE GOVERNING STRUCTURE.....1

3.0 THE COMMITTEE STRUCTURE2

4.0 COMMITTEE MEMBER EXPECTATIONS.....2

 4.1 Committee Chair Expectations2

 4.2 Vice-Chair Expectations3

1.0 INTRODUCTION

The American Association of Motor Vehicle Administrators is a voluntary, nonprofit, tax exempt, educational organization of state and provincial officials in the United States and Canada, responsible for the administration and enforcement of laws pertaining to the motor vehicle and its use.

The AAMVA's scope of operation encompasses the states of the U.S., Canadian provinces, and territories of both countries. Its principle endeavors are:

- Developing model programs in disciplines related to motor vehicle administration, traffic law enforcement, and highway safety, and acting as a repository for specific programs in these disciplines;
- Serving as an information clearinghouse for these same disciplines; and
- Serving as a united voice for these interests and related issues.

The founders wisely perceived that while many problems of motor vehicle administration and police traffic services would be national and international in scope, much of the strength and actual operation of the total organization would depend on continued influence and functioning of regional organizations. Hence, the AAMVA Bylaws provides for four geographical regions. However, there are many advantages to be gained by maintaining a national/international pattern of operation, designed to contribute to the overall strength of the Association.

For purposes of Regional/International continuity, this guide has been prepared to assist the Region IV, Inc. Committee Chairs and Vice-Chairs in understanding their respective responsibilities and meeting these obligations.

2.0 THE GOVERNING STRUCTURE

The Region IV, Inc. governing body is the Board of Directors composed of the following officers and members:

- President
- Vice-President
- Secretary
- Treasurer
- The Immediate Past Region IV President
- Two Members at Large representing all jurisdictions in Region IV including the Region Member serving on the International Executive Committee, if not an Officer or At Large Member
- One Law Enforcement Member at Large representing the law enforcement community of Region IV
- Any individual serving on the International Board of Directors, not listed, shall be a Member of the Region IV Board

3.0 THE COMMITTEE STRUCTURE

Region IV has six (6) Committees:

- Driver Licensing and Control / Financial Responsibility
- Vehicle Registration and Title
- Law Enforcement / Vehicle Safety Inspection
- Customer Service & Delivery / Public Affairs and Consumer Education
- Information Technology

Each Committee consists of a Chair and a Vice-Chair. Committee members are appointed by the Regional President. Terms of service are typically two (2) to three (3) years in each position. It is assumed the Vice-Chair will move up to Chair when the term of the Chair has elapsed.

4.0 COMMITTEE MEMBER EXPECTATIONS

This section provides information as to what the expectations are for individuals serving as a Region IV Committee Chair or Vice-Chair.

4.1 Committee Chair Expectations

1. Assist with the planning of Regional conference agenda through active participation in regularly scheduled conference calls and follow-up of efforts.
 - a. Conference calls usually begin in the December timeframe and continue through May. Initially, calls are scheduled monthly and as planning intensifies, they may be held bi-weekly.
2. Represent the interests of Regional members in discussions / decisions.
3. Solicit topics of interest for agenda discussions from peers in the Region.
4. Identify and contact potential speakers.
5. Provide session descriptions for the conference program.
6. Attend the Regional Conference.
 - a. The Region will cover travel expenses.
7. Moderate, and or present, during conference sessions.
8. Serve as mentor to new Regional Conference attendees.

4.2 Vice-Chair Expectations

1. Assist Committee Chair with the planning of Regional conference agenda through active participation in regularly scheduled conference calls and follow-up of efforts.
 - a. Conference calls usually begin in the December timeframe and continue through May. Initially, calls are scheduled monthly and as planning intensifies, they may be held bi-weekly.
2. Represent the interests of Regional members in discussions / decisions.
3. Identify and contact potential speakers at the Chair's request.
4. Attend the Regional Conference.
 - a. The Region will cover travel expenses.
5. Moderate, and or present, during conference sessions.
6. Serve as mentor to new Regional Conference attendees.

Subject: Update on Member Research and Surveys

Hi everyone,

Here are some of the topics our members have been researching over the past month. The responses to all surveys can be viewed at the following link:

<http://www.aamva.org/Survey/User/Search.aspx>

Vehicle Information for Out Of State Registrations
Uniform Specifications for DL Examiners
System Redesign

Customer Relationship Management Software (CRM)
Rehabilitation of CDL Lifetime Disqualification
Capturing Alternative Fuel Types
Customer Satisfaction
Registration of Antique Vehicles

Members also requested information on the following topics: Real ID, the use of third-party providers, and gender designation on DL/ID.

Keep in mind that most surveys are set to be accessed **only** by jurisdiction members and AAMVA staff. You will need to log into the Web site to view the survey responses.

Please let me know if you have any questions about using the survey tool.

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](http://aamva.org/awards) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

State Cracking Down On Fake Vehicle Inspection Stickers (Maine)

Ready to apply your counterfeit vehicle inspection sticker? First: "Park in a secure area. (People love to be nosy and tattle tale.)" That's how the instructions began for one Maine counterfeiter's black-market stickers – a surprisingly detailed, eight-step process for putting your new, fake-but-incredibly-real-looking sticker on your windshield. And it worked, for a while. Then, someone tattled. [Read the article at pressherald.com](http://pressherald.com).

Maine to Celebrate Bicentennial With Commemorative License Plates

A new Maine Bicentennial license plate will be unveiled next week in Augusta by Secretary of State Matthew Dunlap. Dunlap said in a statement that the license plate will be offered as a keepsake as the state prepares to celebrate 200 years of statehood in 2020. [Read the article at pressherald.com](http://pressherald.com).

Tires, Texting and Teens: Quebec Expected To Toughen Up On Road Safety Rules

The Couillard government is about to table changes to the Highway Safety Code – and one of them may push up the deadline to install winter tires. The move comes after conducting hearings in November where multiple groups called on the provincial government to crack down on distracted driving, including the use of cell phones by drivers. [Read the article at montreal.ctvnews.ca.](#)

No Real ID Nightmare For Pennsylvania Travelers In New Year

Pennsylvanians won't be required to show alternate identification to board planes. Your driver's license or state identification card will still get you on an airplane and into federal facilities in 2018. Pennsylvania-issued identification cards don't yet meet federal security standards, but the state got a Department of Homeland Security extension on compliance, its second, in October. The Pennsylvania Department of Transportation expects to issue its first compliant licenses in March 2019. [Read the article at times.com.](#)

New Poll Shows Americans Consider Texting More Dangerous Than Marijuana While Driving

A new survey released Tuesday conducted by Harris Poll on behalf of the Property Casualty Insurers Association of America found that while the vast majority of Americans believe driving under the influence of marijuana is dangerous, an overwhelming percentage consider texting while behind the wheel even more of a problem. [Read the article at usnews.com.](#)

Older Voters Stymied by Tighter ID Requirements

Older people vote. In last year's presidential election, Census Bureau data show, about 64 percent of all adults had registered to vote and 56 percent reported voting. But among those aged 65 to 74 years old, more than three-quarters had registered and 70 percent voted — a proportion that dropped only slightly in older cohorts. Even among people aged 85 and older, more than 60 percent cast ballots. Still, we don't make it easy for them. [Read the article at nytimes.com.](#)

Trump Administration Aims To Loosen Obama-Era Truck Safety Rules

The Trump administration is hitting the brakes on a range of Obama-era trucking safety regulations, and some truckers are hoping for a last-minute reprieve from another safety mandate scheduled to take effect next month. [Read the article at houstonpublicmedia.org.](#)

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](http://aamva.org/awards) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

State Cracking Down On Fake Vehicle Inspection Stickers (Maine)

Ready to apply your counterfeit vehicle inspection sticker? First: "Park in a secure area. (People love to be nosy and tattle tale.)" That's how the instructions began for one Maine counterfeiter's black-market stickers – a surprisingly detailed, eight-step process for putting your new, fake-but-incredibly-real-looking sticker on your windshield. And it worked, for a while. Then, someone tattled. [Read the article at pressherald.com](http://pressherald.com).

Maine to Celebrate Bicentennial With Commemorative License Plates

A new Maine Bicentennial license plate will be unveiled next week in Augusta by Secretary of State Matthew Dunlap. Dunlap said in a statement that the license plate will be offered as a keepsake as the state prepares to celebrate 200 years of statehood in 2020. [Read the article at pressherald.com](http://pressherald.com).

Tires, Texting and Teens: Quebec Expected To Toughen Up On Road Safety Rules

The Couillard government is about to table changes to the Highway Safety Code – and one of them may push up the deadline to install winter tires. The move comes after conducting hearings in November where multiple groups called on the provincial government to crack down on distracted driving, including the use of cell phones by drivers. [Read the article at montreal.ctvnews.ca.](#)

No Real ID Nightmare For Pennsylvania Travelers In New Year

Pennsylvanians won't be required to show alternate identification to board planes. Your driver's license or state identification card will still get you on an airplane and into federal facilities in 2018. Pennsylvania-issued identification cards don't yet meet federal security standards, but the state got a Department of Homeland Security extension on compliance, its second, in October. The Pennsylvania Department of Transportation expects to issue its first compliant licenses in March 2019. [Read the article at times.com.](#)

But among those aged 65 to 74 years old, more than three-quarters had registered and 70 percent voted — a proportion that dropped only slightly in older cohorts. Even among people aged 85 and older, more than 60 percent cast ballots. Still, we don't make it easy for them. [Read the article at nytimes.com.](#)

Trump Administration Aims To Loosen Obama-Era Truck Safety Rules

The Trump administration is hitting the brakes on a range of Obama-era trucking safety regulations, and some truckers are hoping for a last-minute reprieve from another safety mandate scheduled to take effect next month. [Read the article at houstonpublicmedia.org.](#)

DID YOU KNOW?

On Twitter

@AAMVAConnection has been watching the twitter feed and decided to highlight some of the tweets here. Links are provided within most of the tweets, and we have also provided a link to each tweet as well. Note that you do not have to have an account or sign in to Twitter to view the message posts, images associated with the post, and the reach of the message (retweets, favorited, etc.).

Stay on top of the chatter in the MVA and LE community. You may be surprised at what you're missing! [Follow @AAMVAConnection.](#)

[Check out recent @AAMVAConnection Twitter action.](#)

Thank you for the @AAMVAConnection mentions!

NMVTIS Business Rules Working Group Meets

The [NMVTIS Business Rules Working Group](#) met in Kansas City, November 28 - 30, 2017. The working group had a full agenda that included drafting new best practices and clarifying a few of the existing [Best Practices for Title and Registration Program Managers](#). They also worked on the Salvage Brand Best Practice document. The working group spent time discussing the NMVTIS performance management concept, junk and salvage single point for reporting service, and other topics. It was a very productive and successful meeting. The Business Rules Working Group will continue to work via conference calls and their next face-to-face meeting is slated to take place in February 2018.

AAMVA Visits Texas DPS

On Thursday, November 30, Brian Ursino, AAMVA Director of Law Enforcement, met with Major Chris Nordloh, Texas Highway Patrol; Lieutenant Colonel Skylar Hearn, Texas DPS; and Chief Ron Joy, Texas Highway Patrol. The meeting was focused on sharing best practice ideas and exploring member engagement opportunities. Brian also toured the Texas Emergency Operations Center and their central issuance driver's license operations, all located within DPS headquarters. The meeting and tour was followed by a working lunch that included Whitney Brewster, Administrator of the Texas DMV, and her Deputy Administrator, Shelly Mallott.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, December 5, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Chief Scott Hernandez Retiring from Colorado State Patrol

Chief Scott Hernandez of the Colorado State Patrol is retiring after 31 years of service to the State of Colorado. Chief Hernandez has been active in the AAMVA Community as well as in Region 4. He served on the AAMVA International Board of Directors, was Board Advisor to the Law Enforcement Standing Committee, and also served on the Region 4 Board. AAMVA thanks him for his service and wishes him well in his retirement.

California DMV Launches Awareness Campaign to Combat Unlicensed Vehicle Dismantling

In an effort to address unlicensed vehicle dismantling, the California Department of Motor Vehicles (DMV) is announcing a statewide campaign to inform the public of the health and safety risks posed by this activity. Dismantling a vehicle without a license is against the law and can involve stripping down vehicles, selling used vehicle parts illegally, and dumping hazardous waste into the environment. An estimated 1.2 million vehicles are disposed annually in California – and

approximately 360,000 wind up in the hands of unlicensed and unregulated dismantlers. The DMV Vehicle Dismantler Industry Strike Team is collaborating with representatives from the California Environmental Protection Agency (CalEPA), Department of Toxic Substances Control (DTSC), State Water Resources Control Board (SWRCB), Department of Resources Recycling and Recovery (CalRecycle), California Air Resources Board (CARB), and California Department of Tax and Fee Administration (CDTFA) to investigate the occurrences of unlicensed and unregulated vehicle dismantling. DMV's investigators will continue focusing on problem areas throughout the state by identifying and citing unlicensed vehicle dismantlers, as well as checking for compliance with state law and environmental regulations. The DMV also is unveiling a [poster](#) and [webpage](#) to educate Californians on the impact of unlicensed vehicle dismantling. [Read more here.](#)

AAA and Nevada Launch DMV Services in Carson City

AAA will be partnering with Nevada DMV to provide DMV services to patrons in the Carson City, Nevada area. As part of a pilot program, patrons will be able to complete services that traditionally would need to be taken to a Nevada DMV office location. This service has been 5 years in the making and will be the first of its kind to provide two different states, Nevada and California, DMV services in one location. Most services will be open to Members and non-Members. In 2016, DMV Kiosks processed more than 60,000 transactions in AAA branch locations, proving consumers leverage the service found at their local offices. [Read more here.](#)

FEDERAL NEWS

Government Funding Set to Expire on December 8

Federal government funding is scheduled to end with the expiration of the current continuing resolution (P.L. 115-56) on December 8th. Federal legislators are evaluating an additional continuing resolution that would extend current spending until December 22nd in order to address a full year-end legislative calendar that includes comprehensive tax reform. The U.S. House of Representatives would have to move their new continuing resolution quickly in order to ensure it has the time to be received and considered in the Senate prior to December 8. Some majority lawmakers have indicated that they would prefer a longer-term continuing resolution so that they can avoid making fiscal decisions ahead of other parallel tax and fiscal legislative considerations. Should the efforts ultimately prove futile, and the federal government heads towards shutdown, each federal agency is responsible for developing a shutdown plan that reports how the lack of funding impacts their non-essential mission obligations. AAMVA will continue to keep its members informed as the deadline approaches.

GAO Publishes Report Recommending U.S. DOT Comprehensive Plan on Automated Vehicles

The Government Accountability Office (GAO) has published [a report](#) stating that automated cars and light-duty trucks pose safety and infrastructure challenges for policymakers. For example, policymakers will need to decide if the current approach to vehicle testing and standards is sufficient to ensure adequate vehicle safety. Further, policymakers may want to address how automated vehicles interact with other road users. Likewise, automated vehicles may require infrastructure changes, and policymakers will need to decide what changes to pursue, while also providing for conventional vehicles since many stakeholders expect conventional vehicles to remain on the roads for decades. GAO found that U.S. DOT has made efforts to respond to some of these challenges, including defect investigations and pursuit of recalls of some driver-assistance technologies as well as the issuance of new voluntary guidance that provides technical assistance for states and suggests a framework for industry-led safety testing. The report finds, however, that DOT does not have a comprehensive plan that sets clear goals, that establishes when and how it will act, or that indicates how it will monitor progress. GAO recommends that U.S. DOT develop a comprehensive plan to better manage departmental initiatives related to automated vehicles. DOT concurred with this recommendation. AAMVA and

You can view all open surveys and responses to all surveys by visiting the [survey tool](#). Please contact [Janice Dluzynski](#) if you have any questions about using the survey tool.

selected AAMVA members were among the stakeholders interviewed in conducting this report.

NHTSA Announces New ICR on State Highway Safety Grant Programs

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new information collection request (ICR) on the State Highway Safety Grant Programs. The Fixing America's Surface Transportation Act (FAST) Act, Public Law 114–94, authorizes NHTSA to issue highway safety grants to States. Specifically, these grant programs include the Highway Safety Program grants (23 U.S.C. 402 or Section 402), the National Priority Safety Program grants (23 U.S.C. 405 or Section 405) and a separate grant on racial profiling data collection (Pub. L. 109–59, Sec. 1906 or Section 1906, as amended by Sec. 4011, Pub. L. 114–94). NHTSA uses a consolidated application process that relies on the Highway Safety Plan (HSP) States submit under the Section 402 program as a single application. The information required to be submitted for these grants includes the HSP and application materials that cover Section 405 grants and the Section 1906 grant. States also must submit an annual report evaluating their progress in achieving performance targets. States may be required to receive assessments of their State programs in order to receive a grant. NHTSA has implemented an interim final rule that creates uniform procedures for States to apply for grant funds (81 FR 32554, May 23, 2016), and will issue a final rule in the near future. These procedures specify the information that is required to be submitted to receive a grant and the type of information required to verify performance under the grants. Under these efforts, NHTSA has taken actions to streamline the required application procedures, including the expanded use of an electronic submission process identified as the Grants Management Solutions Suite (GMSS). This system will replace the current grants management tracking system and allows States to apply for and receive grants electronically. NHTSA plans to introduce an updated version of GMSS for fiscal year 2019. Respondents to this ICR include the 50 States, the District of Columbia, and the 5 territories. Comments should be submitted by January 26, 2018.

FMCSA Announces New ICR on Proposed Driver Commuting Practices Survey

The Federal Motor Carrier Safety Administration [announces](#) a new information collection request on the proposed Driver Commuting Practices Survey. FMCSA proposes a survey to inquire about driver commuting practices to fulfill Section 5515 of the Fixing America's Surface Transportation Act, 2015 (FAST Act). Section 5515 of the FAST Act requires FMCSA to conduct a study on the safety effects of motor carrier operator commutes exceeding 150 minutes. The administrator is then required to submit a report to Congress containing the findings of the study. The survey proposed within this information collection request is seeking to gather information on the prevalence of excessive (greater than 150 minutes) driver commuting in the commercial motor vehicle (CMV) industry, including the number and percentage of drivers who commute; the distances traveled, time zones crossed, time spent commuting, and methods of transportation used; research on the impact of excessive commuting on safety and CMV driver fatigue; and the commuting practices of CMV drivers and policies of motor carriers. Comments must be received on or before January 26, 2018.

NHTSA Extends Comment Period to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new comment deadline for the information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill

exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol. Comments must be received by December 26, 2017.

PARTNER NEWS

AAMVA Mourns Nina Walker, MADD National President-Elect

AAMVA mourns the passing of Nina Walker, MADD National President-Elect for the 2018-2020 term. Walker passed away on Sunday, December 3, 2017. Nina joined MADD as a volunteer in October 2002 after her 22-year old daughter, Ginger, was killed in a drunk driving crash February 11, 2001. Ginger left behind a 3-year old son, Shaye, whom Nina and her husband Gary raised. Excited to share Ginger's story on a national stage, Nina was set to start her presidency January 1st. She was excited to take her role. As a member of MADD's National Board of Directors from 2007 to 2015, Nina passionately raised awareness about MADD's victim services, especially MADD's 24/7 national Victim Help Line. As Chairperson of the Victim Services

Committee, the Field Relations Committee and a contributor to other board committees, she was committed to serving as a voice for victims and survivors of the violent and completely preventable crime of drunk or drugged driving and an advocate for the loved ones left behind. She will be greatly missed.

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, December 5, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Chief Scott Hernandez Retiring from Colorado State Patrol

Chief Scott Hernandez of the Colorado State Patrol is retiring after 31 years of service to the State of Colorado. Chief Hernandez has been active in the AAMVA Community as well as in Region 4. He served on the AAMVA International Board of Directors, was Board Advisor to the Law Enforcement Standing Committee, and also served on the Region 4 Board. AAMVA thanks him for his service and wishes him well in his retirement.

California DMV Launches Awareness Campaign to Combat Unlicensed Vehicle Dismantling

In an effort to address unlicensed vehicle dismantling, the California Department of Motor Vehicles (DMV) is announcing a statewide campaign to inform the public of the health and safety risks posed by this activity. Dismantling a vehicle without a license is against the law and can involve stripping down vehicles, selling used vehicle parts illegally, and dumping hazardous waste into the environment. An estimated 1.2 million vehicles are disposed annually in California – and

approximately 360,000 wind up in the hands of unlicensed and unregulated dismantlers. The DMV Vehicle Dismantler Industry Strike Team is collaborating with representatives from the California Environmental Protection Agency (CalEPA), Department of Toxic Substances Control (DTSC), State Water Resources Control Board (SWRCB), Department of Resources Recycling and Recovery (CalRecycle), California Air Resources Board (CARB), and California Department of Tax and Fee Administration (CDTFA) to investigate the occurrences of unlicensed and unregulated vehicle dismantling. DMV's investigators will continue focusing on problem areas throughout the state by identifying and citing unlicensed vehicle dismantlers, as well as checking for compliance with state law and environmental regulations. The DMV also is unveiling a [poster](#) and [webpage](#) to educate Californians on the impact of unlicensed vehicle dismantling. [Read more here.](#)

AAA and Nevada Launch DMV Services in Carson City

AAA will be partnering with Nevada DMV to provide DMV services to patrons in the Carson City, Nevada area. As part of a pilot program, patrons will be able to complete services that traditionally would need to be taken to a Nevada DMV office location. This service has been 5 years in the making and will be the first of its kind to provide two different states, Nevada and California, DMV services in one location. Most services will be open to Members and non-Members. In 2016, DMV Kiosks processed more than 60,000 transactions in AAA branch locations, proving consumers leverage the service found at their local offices. [Read more here.](#)

FEDERAL NEWS

Government Funding Set to Expire on December 8

Federal government funding is scheduled to end with the expiration of the current continuing resolution (P.L. 115-56) on December 8th. Federal legislators are evaluating an additional continuing resolution that would extend current spending until December 22nd in order to address a full year-end legislative calendar that includes comprehensive tax reform. The U.S. House of Representatives would have to move their new continuing resolution quickly in order to ensure it has the time to be received and considered in the Senate prior to December 8. Some majority lawmakers have indicated that they would prefer a longer-term continuing resolution so that they can avoid making fiscal decisions ahead of other parallel tax and fiscal legislative considerations. Should the efforts ultimately prove futile, and the federal government heads towards shutdown, each federal agency is responsible for developing a shutdown plan that reports how the lack of funding impacts their non-essential mission obligations. AAMVA will continue to keep its members informed as the deadline approaches.

GAO Publishes Report Recommending U.S. DOT Comprehensive Plan on Automated Vehicles

The Government Accountability Office (GAO) has published [a report](#) stating that automated cars and light-duty trucks pose safety and infrastructure challenges for policymakers. For example, policymakers will need to decide if the current approach to vehicle testing and standards is sufficient to ensure adequate vehicle safety. Further, policymakers may want to address how automated vehicles interact with other road users. Likewise, automated vehicles may require infrastructure changes, and policymakers will need to decide what changes to pursue, while also providing for conventional vehicles since many stakeholders expect conventional vehicles to remain on the roads for decades. GAO found that U.S. DOT has made efforts to respond to some of these challenges, including defect investigations and pursuit of recalls of some driver-assistance technologies as well as the issuance of new voluntary guidance that provides technical assistance for states and suggests a framework for industry-led safety testing. The report finds, however, that DOT does not have a comprehensive plan that sets clear goals, that establishes when and how it will act, or that indicates how it will monitor progress. GAO recommends that U.S. DOT develop a comprehensive plan to better manage departmental initiatives related to automated vehicles. DOT concurred with this recommendation. AAMVA and

selected AAMVA members were among the stakeholders interviewed in conducting this report.

NHTSA Announces New ICR on State Highway Safety Grant Programs

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new information collection request (ICR) on the State Highway Safety Grant Programs. The Fixing America's Surface Transportation Act (FAST) Act, Public Law 114–94, authorizes NHTSA to issue highway safety grants to States. Specifically, these grant programs include the Highway Safety Program grants (23 U.S.C. 402 or Section 402), the National Priority Safety Program grants (23 U.S.C. 405 or Section 405) and a separate grant on racial profiling data collection (Pub. L. 109–59, Sec. 1906 or Section 1906, as amended by Sec. 4011, Pub. L. 114–94). NHTSA uses a consolidated application process that relies on the Highway Safety Plan (HSP) States submit under the Section 402 program as a single application. The information required to be submitted for these grants includes the HSP and application materials that cover Section 405 grants and the Section 1906 grant. States also must submit an annual report evaluating their progress in achieving performance targets. States may be required to receive assessments of their State programs in order to receive a grant. NHTSA has implemented an interim final rule that creates uniform procedures for States to apply for grant funds (81 FR 32554, May 23, 2016), and will issue a final rule in the near future. These procedures specify the information that is required to be submitted to receive a grant and the type of information required to verify performance under the grants. Under these efforts, NHTSA has taken actions to streamline the required application procedures, including the expanded use of an electronic submission process identified as the Grants Management Solutions Suite (GMSS). This system will replace the current grants management tracking system and allows States to apply for and receive grants electronically. NHTSA plans to introduce an updated version of GMSS for fiscal year 2019. Respondents to this ICR include the 50 States, the District of Columbia, and the 5 territories. Comments should be submitted by January 26, 2018.

FMCSA Announces New ICR on Proposed Driver Commuting Practices Survey

The Federal Motor Carrier Safety Administration [announces](#) a new information collection request on the proposed Driver Commuting Practices Survey. FMCSA proposes a survey to inquire about driver commuting practices to fulfill Section 5515 of the Fixing America's Surface Transportation Act, 2015 (FAST Act). Section 5515 of the FAST Act requires FMCSA to conduct a study on the safety effects of motor carrier operator commutes exceeding 150 minutes. The administrator is then required to submit a report to Congress containing the findings of the study. The survey proposed within this information collection request is seeking to gather information on the prevalence of excessive (greater than 150 minutes) driver commuting in the commercial motor vehicle (CMV) industry, including the number and percentage of drivers who commute; the distances traveled, time zones crossed, time spent commuting, and methods of transportation used; research on the impact of excessive commuting on safety and CMV driver fatigue; and the commuting practices of CMV drivers and policies of motor carriers. Comments must be received on or before January 26, 2018.

NHTSA Extends Comment Period to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new comment deadline for the information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill

exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol. Comments must be received by December 26, 2017.

AAMVA Mourns Nina Walker, MADD National President-Elect

AAMVA mourns the passing of Nina Walker, MADD National President-Elect for the 2018-2020 term. Walker passed away on Sunday, December 3, 2017. Nina joined MADD as a volunteer in October 2002 after her 22-year old daughter, Ginger, was killed in a drunk driving crash February 11, 2001. Ginger left behind a 3-year old son, Shaye, whom Nina and her husband Gary raised. Excited to share Ginger's story on a national stage, Nina was set to start her presidency January 1st. She was excited to take her role. As a member of MADD's National Board of Directors from 2007 to 2015, Nina passionately raised awareness about MADD's victim services, especially MADD's 24/7 national Victim Help Line. As Chairperson of the Victim Services

Committee, the Field Relations Committee and a contributor to other board committees, she was committed to serving as a voice for victims and survivors of the violent and completely preventable crime of drunk or drugged driving and an advocate for the loved ones left behind. She will be greatly missed.

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, December 5, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Chief Scott Hernandez Retiring from Colorado State Patrol

Chief Scott Hernandez of the Colorado State Patrol is retiring after 31 years of service to the State of Colorado. Chief Hernandez has been active in the AAMVA Community as well as in Region 4. He served on the AAMVA International Board of Directors, was Board Advisor to the Law Enforcement Standing Committee, and also served on the Region 4 Board. AAMVA thanks him for his service and wishes him well in his retirement.

California DMV Launches Awareness Campaign to Combat Unlicensed Vehicle Dismantling

In an effort to address unlicensed vehicle dismantling, the California Department of Motor Vehicles (DMV) is announcing a statewide campaign to inform the public of the health and safety risks posed by this activity. Dismantling a vehicle without a license is against the law and can involve stripping down vehicles, selling used vehicle parts illegally, and dumping hazardous waste into the environment. An estimated 1.2 million vehicles are disposed annually in California – and

approximately 360,000 wind up in the hands of unlicensed and unregulated dismantlers. The DMV Vehicle Dismantler Industry Strike Team is collaborating with representatives from the California Environmental Protection Agency (CalEPA), Department of Toxic Substances Control (DTSC), State Water Resources Control Board (SWRCB), Department of Resources Recycling and Recovery (CalRecycle), California Air Resources Board (CARB), and California Department of Tax and Fee Administration (CDTFA) to investigate the occurrences of unlicensed and unregulated vehicle dismantling. DMV's investigators will continue focusing on problem areas throughout the state by identifying and citing unlicensed vehicle dismantlers, as well as checking for compliance with state law and environmental regulations. The DMV also is unveiling a [poster](#) and [webpage](#) to educate Californians on the impact of unlicensed vehicle dismantling. [Read more here.](#)

AAA and Nevada Launch DMV Services in Carson City

AAA will be partnering with Nevada DMV to provide DMV services to patrons in the Carson City, Nevada area. As part of a pilot program, patrons will be able to complete services that traditionally would need to be taken to a Nevada DMV office location. This service has been 5 years in the making and will be the first of its kind to provide two different states, Nevada and California, DMV services in one location. Most services will be open to Members and non-Members. In 2016, DMV Kiosks processed more than 60,000 transactions in AAA branch locations, proving consumers leverage the service found at their local offices. [Read more here.](#)

FEDERAL NEWS

Government Funding Set to Expire on December 8

Federal government funding is scheduled to end with the expiration of the current continuing resolution (P.L. 115-56) on December 8th. Federal legislators are evaluating an additional continuing resolution that would extend current spending until December 22nd in order to address a full year-end legislative calendar that includes comprehensive tax reform. The U.S. House of Representatives would have to move their new continuing resolution quickly in order to ensure it has the time to be received and considered in the Senate prior to December 8. Some majority lawmakers have indicated that they would prefer a longer-term continuing resolution so that they can avoid making fiscal decisions ahead of other parallel tax and fiscal legislative considerations. Should the efforts ultimately prove futile, and the federal government heads towards shutdown, each federal agency is responsible for developing a shutdown plan that reports how the lack of funding impacts their non-essential mission obligations. AAMVA will continue to keep its members informed as the deadline approaches.

GAO Publishes Report Recommending U.S. DOT Comprehensive Plan on Automated Vehicles

The Government Accountability Office (GAO) has published [a report](#) stating that automated cars and light-duty trucks pose safety and infrastructure challenges for policymakers. For example, policymakers will need to decide if the current approach to vehicle testing and standards is sufficient to ensure adequate vehicle safety. Further, policymakers may want to address how automated vehicles interact with other road users. Likewise, automated vehicles may require infrastructure changes, and policymakers will need to decide what changes to pursue, while also providing for conventional vehicles since many stakeholders expect conventional vehicles to remain on the roads for decades. GAO found that U.S. DOT has made efforts to respond to some of these challenges, including defect investigations and pursuit of recalls of some driver-assistance technologies as well as the issuance of new voluntary guidance that provides technical assistance for states and suggests a framework for industry-led safety testing. The report finds, however, that DOT does not have a comprehensive plan that sets clear goals, that establishes when and how it will act, or that indicates how it will monitor progress. GAO recommends that U.S. DOT develop a comprehensive plan to better manage departmental initiatives related to automated vehicles. DOT concurred with this recommendation. AAMVA and

selected AAMVA members were among the stakeholders interviewed in conducting this report.

NHTSA Announces New ICR on State Highway Safety Grant Programs

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new information collection request (ICR) on the State Highway Safety Grant Programs. The Fixing America's Surface Transportation Act (FAST) Act, Public Law 114–94, authorizes NHTSA to issue highway safety grants to States. Specifically, these grant programs include the Highway Safety Program grants (23 U.S.C. 402 or Section 402), the National Priority Safety Program grants (23 U.S.C. 405 or Section 405) and a separate grant on racial profiling data collection (Pub. L. 109–59, Sec. 1906 or Section 1906, as amended by Sec. 4011, Pub. L. 114–94). NHTSA uses a consolidated application process that relies on the Highway Safety Plan (HSP) States submit under the Section 402 program as a single application. The information required to be submitted for these grants includes the HSP and application materials that cover Section 405 grants and the Section 1906 grant. States also must submit an annual report evaluating their progress in achieving performance targets. States may be required to receive assessments of their State programs in order to receive a grant. NHTSA has implemented an interim final rule that creates uniform procedures for States to apply for grant funds (81 FR 32554, May 23, 2016), and will issue a final rule in the near future. These procedures specify the information that is required to be submitted to receive a grant and the type of information required to verify performance under the grants. Under these efforts, NHTSA has taken actions to streamline the required application procedures, including the expanded use of an electronic submission process identified as the Grants Management Solutions Suite (GMSS). This system will replace the current grants management tracking system and allows States to apply for and receive grants electronically. NHTSA plans to introduce an updated version of GMSS for fiscal year 2019. Respondents to this ICR include the 50 States, the District of Columbia, and the 5 territories. Comments should be submitted by January 26, 2018.

FMCSA Announces New ICR on Proposed Driver Commuting Practices Survey

The Federal Motor Carrier Safety Administration [announces](#) a new information collection request on the proposed Driver Commuting Practices Survey. FMCSA proposes a survey to inquire about driver commuting practices to fulfill Section 5515 of the Fixing America's Surface Transportation Act, 2015 (FAST Act). Section 5515 of the FAST Act requires FMCSA to conduct a study on the safety effects of motor carrier operator commutes exceeding 150 minutes. The administrator is then required to submit a report to Congress containing the findings of the study. The survey proposed within this information collection request is seeking to gather information on the prevalence of excessive (greater than 150 minutes) driver commuting in the commercial motor vehicle (CMV) industry, including the number and percentage of drivers who commute; the distances traveled, time zones crossed, time spent commuting, and methods of transportation used; research on the impact of excessive commuting on safety and CMV driver fatigue; and the commuting practices of CMV drivers and policies of motor carriers. Comments must be received on or before January 26, 2018.

NHTSA Extends Comment Period to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new comment deadline for the information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill

exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol. Comments must be received by December 26, 2017.

AAMVA Mourns Nina Walker, MADD National President-Elect

AAMVA mourns the passing of Nina Walker, MADD National President-Elect for the 2018-2020 term. Walker passed away on Sunday, December 3, 2017. Nina joined MADD as a volunteer in October 2002 after her 22-year old daughter, Ginger, was killed in a drunk driving crash February 11, 2001. Ginger left behind a 3-year old son, Shaye, whom Nina and her husband Gary raised. Excited to share Ginger's story on a national stage, Nina was set to start her presidency January 1st. She was excited to take her role. As a member of MADD's National Board of Directors from 2007 to 2015, Nina passionately raised awareness about MADD's victim services, especially MADD's 24/7 national Victim Help Line. As Chairperson of the Victim Services

Committee, the Field Relations Committee and a contributor to other board committees, she was committed to serving as a voice for victims and survivors of the violent and completely preventable crime of drunk or drugged driving and an advocate for the loved ones left behind. She will be greatly missed.

NMVTIS Business Rules Working Group Meets

The [NMVTIS Business Rules Working Group](#) met in Kansas City, November 28 - 30, 2017. The working group had a full agenda that included drafting new best practices and clarifying a few of the existing [Best Practices for Title and Registration Program Managers](#). They also worked on the Salvage Brand Best Practice document. The working group spent time discussing the NMVTIS performance management concept, junk and salvage single point for reporting service, and other topics. It was a very productive and successful meeting. The Business Rules Working Group will continue to work via conference calls and their next face-to-face meeting is slated to take place in February 2018.

AAMVA Visits Texas DPS

On Thursday, November 30, Brian Ursino, AAMVA Director of Law Enforcement, met with Major Chris Nordloh, Texas Highway Patrol; Lieutenant Colonel Skylar Hearn, Texas DPS; and Chief Ron Joy, Texas Highway Patrol. The meeting was focused on sharing best practice ideas and exploring member engagement opportunities. Brian also toured the Texas Emergency Operations Center and their central issuance driver's license operations, all located within DPS headquarters. The meeting and tour was followed by a working lunch that included Whitney Brewster, Administrator of the Texas DMV, and her Deputy Administrator, Shelly Mallott.

The meeting was focused on sharing best practice ideas and exploring member engagement opportunities. Brian also toured the Texas Emergency Operations Center and their central issuance driver's license operations, all located within DPS headquarters. The meeting and tour was followed by a working lunch that included Whitney Brewster, Administrator of the Texas DMV, and her Deputy Administrator, Shelly Mallott.

AAMVA Awards 2018 - Call for Entries!

Award submissions are due on December 22

12 | [NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

13 | [NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 2](#)

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Understanding the Administrative Features](#)
Tuesday, December 5, 2017, 2:00 - 3:00 pm (ET)

The NMVTIS SWI Web Application is used by the states to perform title verification and data corrections. This webinar focuses on how the states use the administrative features to oversee the states user community. A brief overview of the SWI application is also provided. The SWI application has been built so that each state manages their own user community. This includes configuring the system with organizations to which users are assigned. The state administrator is responsible for user role assignments and user account activation and deactivation. The SWI Application also includes a reporting component that allows state administrators to monitor user activity.

JURISDICTION NEWS

Chief Scott Hernandez Retiring from Colorado State Patrol

Chief Scott Hernandez of the Colorado State Patrol is retiring after 31 years of service to the State of Colorado. Chief Hernandez has been active in the AAMVA Community as well as in Region 4. He served on the AAMVA International Board of Directors, was Board Advisor to the Law Enforcement Standing Committee, and also served on the Region 4 Board. AAMVA thanks him for his service and wishes him well in his retirement.

California DMV Launches Awareness Campaign to Combat Unlicensed Vehicle Dismantling

In an effort to address unlicensed vehicle dismantling, the California Department of Motor Vehicles (DMV) is announcing a statewide campaign to inform the public of the health and safety risks posed by this activity. Dismantling a vehicle without a license is against the law and can involve stripping down vehicles, selling used vehicle parts illegally, and dumping hazardous waste into the environment. An estimated 1.2 million vehicles are disposed annually in California – and

OUR SURVEYS

Please respond to these surveys from Idaho, Tennessee, Virginia, District of Columbia, and Colorado.

DMV Service Providers (Ends 12/08/2017) Responses received from DC, GA, IN, LA, NH, NM, NY, SD, TN, TX, VT.

Records Retention (Ends 12/07/2017) Responses received from CT, ID, IL, ME, MO, MS, NJ, OH, RI, SC, SD, TX, VT, WI.

Eye Glasses and DL (Ends 12/29/2017) Responses received from AB, AT, CO, CT, GA, HI, ID, LA, ME, MS, NE, NM, PA, QC, SC, SK, TX, VT WY.

DMV Returned Mail (Ends 01/03/2018) Response received from LA.

Drive Testing and Intoxication (Ends 12/19/2017) Responses received from AK, AR, CT, DC, FL, HI, ID, IL, LA, MD, ME, MN, MO, MS, NE, OH, SC, SD, TX, VA, WY.

approximately 360,000 wind up in the hands of unlicensed and unregulated dismantlers. The DMV Vehicle Dismantler Industry Strike Team is collaborating with representatives from the California Environmental Protection Agency (CalEPA), Department of Toxic Substances Control (DTSC), State Water Resources Control Board (SWRCB), Department of Resources Recycling and Recovery (CalRecycle), California Air Resources Board (CARB), and California Department of Tax and Fee Administration (CDTFA) to investigate the occurrences of unlicensed and unregulated vehicle dismantling. DMV's investigators will continue focusing on problem areas throughout the state by identifying and citing unlicensed vehicle dismantlers, as well as checking for compliance with state law and environmental regulations. The DMV also is unveiling a [poster](#) and [webpage](#) to educate Californians on the impact of unlicensed vehicle dismantling. [Read more here.](#)

AAA and Nevada Launch DMV Services in Carson City

AAA will be partnering with Nevada DMV to provide DMV services to patrons in the Carson City, Nevada area. As part of a pilot program, patrons will be able to complete services that traditionally would need to be taken to a Nevada DMV office location. This service has been 5 years in the making and will be the first of its kind to provide two different states, Nevada and California, DMV services in one location. Most services will be open to Members and non-Members. In 2016, DMV Kiosks processed more than 60,000 transactions in AAA branch locations, proving consumers leverage the service found at their local offices. [Read more here.](#)

FEDERAL NEWS

Government Funding Set to Expire on December 8

Federal government funding is scheduled to end with the expiration of the current continuing resolution (P.L. 115-56) on December 8th. Federal legislators are evaluating an additional continuing resolution that would extend current spending until December 22nd in order to address a full year-end legislative calendar that includes comprehensive tax reform. The U.S. House of Representatives would have to move their new continuing resolution quickly in order to ensure it has the time to be received and considered in the Senate prior to December 8. Some majority lawmakers have indicated that they would prefer a longer-term continuing resolution so that they can avoid making fiscal decisions ahead of other parallel tax and fiscal legislative considerations. Should the efforts ultimately prove futile, and the federal government heads towards shutdown, each federal agency is responsible for developing a shutdown plan that reports how the lack of funding impacts their non-essential mission obligations. AAMVA will continue to keep its members informed as the deadline approaches.

GAO Publishes Report Recommending U.S. DOT Comprehensive Plan on Automated Vehicles

The Government Accountability Office (GAO) has published [a report](#) stating that automated cars and light-duty trucks pose safety and infrastructure challenges for policymakers. For example, policymakers will need to decide if the current approach to vehicle testing and standards is sufficient to ensure adequate vehicle safety. Further, policymakers may want to address how automated vehicles interact with other road users. Likewise, automated vehicles may require infrastructure changes, and policymakers will need to decide what changes to pursue, while also providing for conventional vehicles since many stakeholders expect conventional vehicles to remain on the roads for decades. GAO found that U.S. DOT has made efforts to respond to some of these challenges, including defect investigations and pursuit of recalls of some driver-assistance technologies as well as the issuance of new voluntary guidance that provides technical assistance for states and suggests a framework for industry-led safety testing. The report finds, however, that DOT does not have a comprehensive plan that sets clear goals, that establishes when and how it will act, or that indicates how it will monitor progress. GAO recommends that U.S. DOT develop a comprehensive plan to better manage departmental initiatives related to automated vehicles. DOT concurred with this recommendation. AAMVA and

selected AAMVA members were among the stakeholders interviewed in conducting this report.

NHTSA Announces New ICR on State Highway Safety Grant Programs

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new information collection request (ICR) on the State Highway Safety Grant Programs. The Fixing America's Surface Transportation Act (FAST) Act, Public Law 114–94, authorizes NHTSA to issue highway safety grants to States. Specifically, these grant programs include the Highway Safety Program grants (23 U.S.C. 402 or Section 402), the National Priority Safety Program grants (23 U.S.C. 405 or Section 405) and a separate grant on racial profiling data collection (Pub. L. 109–59, Sec. 1906 or Section 1906, as amended by Sec. 4011, Pub. L. 114–94). NHTSA uses a consolidated application process that relies on the Highway Safety Plan (HSP) States submit under the Section 402 program as a single application. The information required to be submitted for these grants includes the HSP and application materials that cover Section 405 grants and the Section 1906 grant. States also must submit an annual report evaluating their progress in achieving performance targets. States may be required to receive assessments of their State programs in order to receive a grant. NHTSA has implemented an interim final rule that creates uniform procedures for States to apply for grant funds (81 FR 32554, May 23, 2016), and will issue a final rule in the near future. These procedures specify the information that is required to be submitted to receive a grant and the type of information required to verify performance under the grants. Under these efforts, NHTSA has taken actions to streamline the required application procedures, including the expanded use of an electronic submission process identified as the Grants Management Solutions Suite (GMSS). This system will replace the current grants management tracking system and allows States to apply for and receive grants electronically. NHTSA plans to introduce an updated version of GMSS for fiscal year 2019. Respondents to this ICR include the 50 States, the District of Columbia, and the 5 territories. Comments should be submitted by January 26, 2018.

FMCSA Announces New ICR on Proposed Driver Commuting Practices Survey

The Federal Motor Carrier Safety Administration [announces](#) a new information collection request on the proposed Driver Commuting Practices Survey. FMCSA proposes a survey to inquire about driver commuting practices to fulfill Section 5515 of the Fixing America's Surface Transportation Act, 2015 (FAST Act). Section 5515 of the FAST Act requires FMCSA to conduct a study on the safety effects of motor carrier operator commutes exceeding 150 minutes. The administrator is then required to submit a report to Congress containing the findings of the study. The survey proposed within this information collection request is seeking to gather information on the prevalence of excessive (greater than 150 minutes) driver commuting in the commercial motor vehicle (CMV) industry, including the number and percentage of drivers who commute; the distances traveled, time zones crossed, time spent commuting, and methods of transportation used; research on the impact of excessive commuting on safety and CMV driver fatigue; and the commuting practices of CMV drivers and policies of motor carriers. Comments must be received on or before January 26, 2018.

NHTSA Extends Comment Period to Evaluate Effectiveness of Visual Scanning Training for Older Drivers

The National Highway Traffic Safety Administration (NHTSA) [announces](#) a new comment deadline for the information collection request entitled, "Visual Scanning Training for Older Drivers." According to the notice, studies have identified particular situations where older drivers are most at risk, including navigating intersections and merging. These tasks share attributes of elevated demand on visual search and visual attention skills. The visual scanning training protocol that is the focus of this study was designed to be delivered in one-on-one sessions by a generalist occupational therapist in a clinical setting, targeting visual field expansion, simultaneous process of multiple visual stimuli, and ocular skill

exercises. In order to gain data on this training, NHTSA study staff will invite 90 drivers 70 and older to either participate in a visual scanning training program or be placed in a control activity for the same number of hours. All participants will then be evaluated on the road by a Certified Driver Rehabilitation Specialist, to determine the effectiveness of the training protocol. Comments must be received by December 26, 2017.

PARTNER NEWS

AAMVA Mourns Nina Walker, MADD National President-Elect

AAMVA mourns the passing of Nina Walker, MADD National President-Elect for the 2018-2020 term. Walker passed away on Sunday, December 3, 2017. Nina joined MADD as a volunteer in October 2002 after her 22-year old daughter, Ginger, was killed in a drunk driving crash February 11, 2001. Ginger left behind a 3-year old son, Shaye, whom Nina and her husband Gary raised. Excited to share Ginger's story on a national stage, Nina was set to start her presidency January 1st. She was excited to take her role. As a member of MADD's National Board of Directors from 2007 to 2015, Nina passionately raised awareness about MADD's victim services, especially MADD's 24/7 national Victim Help Line. As Chairperson of the Victim Services

Committee, the Field Relations Committee and a contributor to other board committees, she was committed to serving as a voice for victims and survivors of the violent and completely preventable crime of drunk or drugged driving and an advocate for the loved ones left behind. She will be greatly missed.

Hey Mina,

After a bit of searching on the SharePoint I could not find the current version either. (I did find the version previous to our revisions but that isn't very helpful.)

I know Madhu has a copy and was going to look at posting it to the SharePoint if it isn't there.

Madhu,

When you post the current Charter could you please add it with its own page linked from the nav bar on the left? And then we could keep a history of the revised charters as well?

Thanks and have a wonderful day,
-Andy

Subject: National Driver Register Cleanfile - December 17, 2017

The National Driver Register will conduct a Cleanfile on December 17th, 2017.

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by December 6th, 2017, and plan to send your file to NDR no later than December 13th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Subject: Driver's License Compact

Good morning,

As you are aware, AAMVA is revisiting the Driver's License Compact and has a dedicated staff (Jessi Ross) who will be leading this effort. Jessi is requesting your assistance to join a webinar to discuss all things Driver's License Compact related. On the call we will be discussing the past, present, and future of the Non-Resident Violators Compact (NRVC), Driver's License Compact (DLC) and the Driver's License Agreement (DLA). Jurisdictional members who are involved in areas of work that include the above Compacts and Agreements and Chief Administrators are encouraged to attend. The scheduled time and information for Region 4 is below.

I will send the meeting request to the Chief Administrators but please feel free to forward the invite to those additional people that should be on the call as well.

Session Schedule:

Region 4: Thursday, January 18th, 2018 from 2:00PM-3:00PM EST.

Makeup session (All Jurisdictions): Friday, January 19th, 2018 from 10:00AM-11:00 AM EST

Subject: RE: CDLIS WG member solicitation

Good Morning,

I did upload the latest version of the CDLIS WG charter and added it to the navigation bar to the left.

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/CDLIS%20WG%20Charter/CDLIS%20Working%20Group%20Charter%20-%20WG%2020161018.pdf>

Just to summarize what we spoke during the meeting yesterday:

1. When there is an opening for a new jurisdiction/member to join the CDLIS WG, a notification will be sent out to all the jurisdiction members seeking applicants.
2. Once we have received the applications from interested jurisdiction/members, a questionnaire will be sent to them to be completed and submitted to the PRC.
3. PRC will then review the applications and vote.
4. The chosen jurisdiction/member will then be notified.

We also have to define a formal process when there is an opening in the PRC. Some options are:

1. The outgoing PRC member will recommend a representative from their jurisdiction.
2. The PRC members will extend an invitation to another member on the CDLIS WG.
3. A notification will be sent to the members of the CDLIS WG seeking applicants. And once applications are received, the PRC will vote and decide the new member.

I also briefly talked to Mindy about our discussion yesterday, and I am copying her on this email. She has been very involved with a group in AAMVA that is working towards formalizing procedures for Working Groups and Committees. I want to make sure we check with her before we work on anything, so that we make sure our efforts are not going to be scraped once the formal procedures take effect sometime early 2018. She did mention that replacing a member is not something the group has discussed as yet, so there are no formal procedures discussed.

At this point, I think we can go ahead with replacing MA with another member, but it is better we don't work on a new version of the charter as we will soon be given a new template and format to adhere to.

Meena, thank you so much on taking the initiative on the questionnaire, that will be really helpful.

Thank you,
Madhu

Subject: RE: CDLIS WG member solicitation

Hey Mina,

After a bit of searching on the SharePoint I could not find the current version either. (I did find the version previous to our revisions but that isn't very helpful.)

I know Madhu has a copy and was going to look at posting it to the SharePoint if it isn't there.

Madhu,

When you post the current Charter could you please add it with its own page linked from the nav bar on the left? And then we could keep a history of the revised charters as well?

Thanks and have a wonderful day,

-Andy

Subject: CDLIS WG member solicitation

Good morning,

Since I started the questionnaire suggestion, I figure I should start the first draft. However, I looked on the CDLIS WG site and do not see a copy of our charter or standing rules. Does anyone have it that they can send and/or post? We might want to also consider proposing a change or two (such as not only restricting the number of members, but that the members need to be relatively consistent).

Subject: AAMVA Opportunity - Finance, Investment and Audit Committee (FI&A)
Attachments: Finance Investment Audit Committee Charter - Revised 7.18.2017 (1).pdf

Good morning,

On behalf of Region 4 President, Sarah Garcia, I am writing to seek candidates who are interested in volunteering for AAMVA's Finance, Investment and Audit Committee (FI&A). As a result of Heidi Reilly's move to another agency in Utah, Region 4 has a vacancy on the committee. Each AAMVA region has two representatives on the FI&A Committee. Board member Pat Kohler, Director of Licensing in Washington, is the other member from Region 4.

The FI&A Committee provides oversight and guidance to AAMVA's CFO to assist AAMVA's Board of Directors in fulfilling its financial governance responsibilities. Committee members generally possess financial expertise or experience in finance or accounting. In some cases, executive level oversight of financial management functions of an agency will suffice, providing the person demonstrates an understanding of the fundamentals of financial statements, auditing and tax requirements. There are nine members on the Committee including Rick Holcomb, AAMVA's Treasurer. Members serve 3-year terms and meet 6-7 times per year (once in person). AAMVA funds committee members' travel expense. A copy of the Committee's charter is attached.

If you are interested, or are interested in recommending an eligible staff member to fill the volunteer position, please submit your name to Sarah Garcia with a cc to myself no later than December 22, 2017. Thank you for your consideration in advance.

AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS

Finance, Investment & Audit Committee Charter

As revised by the Committee July 18, 2017¹

1. **Purpose.** The Finance, Investment and Audit Committee's (Committee) role is one of oversight. The Committee will assist and report to the Board of Directors (Board) in fulfilling its financial oversight responsibilities by monitoring the following:
 - A. Budget development and oversight, including financial reporting and accounting documentation
 - B. Investment management
 - C. Overall systems of internal control and risk mitigation
 - D. Integrity of the financial statements
 - E. Compliance with legal and regulatory requirements and ethical standards
 - F. Independence and performance of the independent auditors
 - G. Adherence to procurement policies
2. **Committee Membership Requirements & Composition.**
 - A. Committee members shall be chosen because they are financial experts, with expertise in finance or accounting, and who understand the fundamentals of financial statements, portfolio investments, and marketable securities. A financial expert includes a person who may possess one or more of the following qualities:
 - i) Understand financial and accounting concepts and financial statements.
 - ii) Have experience reviewing corporate financial statements.
 - iii) Understand internal accounting controls.
 - iv) Understand the functions of an Audit Committee.
 - v) Understand the elements of investments.
 - vi) Have experience evaluating an investment portfolio's effectiveness.
 - B. The Committee shall consist of at least eight members appointed by the Chair of the Board in addition to the Treasurer for a minimum of nine members (not counting *ex officio* members). The CEO and CFO of AAMVA will be non-voting *ex officio* members of the Committee.
 - C. At least two members of the Committee (in addition to the Treasurer) shall be members of the Board, and at least three members of the Committee (including the Treasurer) shall be Financial Experts. With the exception of the Treasurer and the two other Board Members, Committee Members are not required to be Board Members. The Committee Members shall be selected such that the Committee has representation from each of the four regions whenever possible. When considering candidates to represent a specific region, the Treasurer will ask the Chair of the Board to request nominations from the Regional President for that region.
 - D. Preference will be given to candidates who are employees of Member Jurisdictions, who are members of the Motor Vehicle or Transportation communities in their respective states, and who have the requisite financial qualifications and/or prior experience serving on committees with similar responsibilities.
 - E. The Treasurer will serve as Chair of the Committee. The Committee members shall serve three year terms with one renewal option at the Board Chair's discretion. The Treasurer shall serve for the duration of his/her term of office. Committee members may be removed or replaced at the discretion of the Board Chair
3. **Committee Meetings.** The Committee shall meet at least four times per year, and at other times as deemed necessary by the Committee Chair. One of those meetings shall be a face-to-face meeting at the discretion of the Chair. The Committee Chair will ensure that Minutes for each meeting are

¹ First revision by the Committee since Board approval in FY2016. Revision effective July 18, 2017.

recorded and that the results of each meeting are reported to the Board.

4. Committee Authority.

- A. The Committee's role is one of oversight. Management is responsible for preparing the financial statements and the independent auditors are responsible for auditing those financial statements. Consequently, in carrying out its oversight responsibilities, the Committee is not providing any expert or special assurance as to the financial statements, budgeting activities, investment activities or any professional certification as to the independent auditor's work.
- B. With the approval of the Board, the Committee Chair shall have the authority to:
 - i) conduct or authorize investigations into any matters within the Committee's scope of responsibilities, with access to all books, records, facilities, and personnel; and
 - ii) retain special legal, accounting, or other consultants and to form subcommittees or working groups to assist in the conduct of such investigations or to advise or coordinate the Committee's mandates, at AAMVA's expense.
- C. The Committee Chair may request any person including, but not limited to, any officer or employee of AAMVA or the independent auditor, to attend Committee meetings or to meet with any members of, or advisors to, the Committee.

5. Scope of Responsibilities. The Committee shall undertake the following responsibilities as required and applicable. The Committee is authorized to carry out these activities and other actions reasonably related to the Committee's purposes or assigned by the Board and/or Executive Committee from time to time. Given the voluntary nature of Committee membership and the fact that members have other full-time employment responsibilities, it is contemplated that additional advisory and administrative support may be required in order for the Committee to fulfill its responsibilities in accordance with the Committee Charter. As such, the Committee Chair shall have the authority, with the concurrence of the Chair of the Board, to retain advisory support services as deemed necessary to fulfill the Committee's activities.

- A. Budgeting and Financial Planning
 - i) Ensure the development of an annual operating Budget by management.
 - ii) Review, validate and approve the Budget for subsequent presentation to the Executive Committee and Board for final adoption.
 - iii) Monitor adherence to the Budget.
 - iv) Work with management to set long-range financial goals along with funding strategies to achieve them.
 - v) Oversee the development of multi-year operating budgets that integrate strategic plan objectives and initiatives.
 - vi) Oversee the presentation of all financial goals and proposals to the Board for approval.
- B. Reporting
 - i) Oversee management's development of monthly internal financial reports for review by the Committee.
 - ii) Oversee the presentation of financial reports to the Executive Committee and the full Board as applicable.
- C. Accounting Policies and Documentation
 - i) Oversee management efforts to create, approve, and update financial policies (as necessary) that help ensure the assets of the organization are protected.
 - ii) Ensure policies and procedures for financial transactions are documented in a manual, and the manual is reviewed annually and updated as necessary.
 - iii) Establish oversight capabilities to ensure approved financial policies and procedures are being followed.
 - iv) Ensure compliance and/or the development of other policies that further serve to protect the

organization and manage its exposure to risk. These include, but are not limited to:

- (1) Long-term contracts or leases
- (2) Loans or lines of credit
- (3) Capital purchases
- (4) Insurance requirements and reviews
- (5) Record retention
- (6) Gift acceptance

D. Investment Management Oversight

- i) Review the investment policy annually for those handling investment funds and recommend any needed revisions of policy to the Executive Committee and the Board.
- ii) Recommend the appointment, renewal, or replacement of fund managers to the Executive Committee and the Board.
- iii) Regularly review the performance of fund managers against the investment policy and results of other peer group funds. The Committee Members are to be notified of any recommended change in fund managers and given the opportunity to vote on the recommended change. If a Committee meeting is not scheduled in the near future, this notice will be done via email with a set date for a response. No response will be deemed approval of the recommendation by the Member.
- iv) Ensure that AAMVA investments are made in conformance with applicable investment policies and investment resolutions.
- v) Oversee the establishment and maintenance of the portfolio investment policy.

E. Independent Audits

- i) Recommend to the Executive Committee and the Board the appointment and, if appropriate, termination of the independent auditor.
- ii) Oversee and evaluate the work of the independent auditor who shall report directly to the Committee and to the Board.
- iii) Review and confirm the independence of the independent auditor annually by obtaining and reviewing a report from the independent auditor delineating all relationships between the independent auditor and AAMVA.
- iv) Review with the independent auditor any problems the auditor has encountered performing the audit, any management letter provided, management's response to that letter, and matters that the independent auditor is required to communicate to the Committee and the Board.

F. Internal Control and Risk Mitigation

- i) Review with management and the independent auditor major financial risk exposures, if any, and evaluate the steps management has taken to monitor and minimize such exposures.
- ii) Require management to establish procedures for receiving, retaining, and treating complaints received regarding accounting, internal accounting controls, or auditing matters and the confidential, anonymous submission by employees regarding questionable accounting or auditing matters.

G. Financial Reporting

- i) Review with the independent auditor significant accounting and reporting issues, including recent professional and regulatory pronouncements, understand their impact on the financial statements, and ensure that all such issues have been considered in the preparation of the financial statements.
- ii) Annual Financial Statements
 - (1) Review with management and the independent auditor any complex and/or unusual transactions.
 - (2) Review with management and the independent auditor, in separate executive sessions, the annual financial statements and the results of the audit.
 - (3) Review with management the annual audit report and recommendations of the independent auditor, including any audit problems or difficulties, and management's

response.

H. Other Responsibilities:

- i) The Committee is to be notified in a timely manner of any violations of laws, regulations, ethics, or policies with a material financial impact on the organization, so that the Committee is able to participate in recommending a resolution of the issue to the Board. Such issues would include government compliance disputes with federal, state, or local governments. The timing of such notifications to the Committee will be based on the advice of Counsel.
- ii) Annually review and recommend updates to the Committee's charter, to the Board, as needed.
- iii) Maintain Minutes of meetings and report Committee actions to the Board at least once annually, and make such recommendations, as the Committee deems appropriate.
- iv) Create a planning calendar for the ensuing year, or review and approve the planning calendar submitted by management.
- v) Ensure that significant findings and recommendations made by the independent auditors are received and addressed by management on a timely basis.
- vi) Prepare a Finance, Investment and Audit Committee Annual Report to be presented to the Membership annually.

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 12/6/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728
Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Implementation date has been extended to January 22, 2018.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	
David Nolen	Alaska	√	
Dillon Pressley	Alaska – Resource Data	√	
Joshua Shoemaker	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	
Sam Amaya	AAMVA, Project Director	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Initial Load Testing
- Initial Load Dry Run
- Implementation Plan Updates
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Finish validation and sent results to AK for the latest initial load files	Amir Chaudhry	11/30/2017	Complete
Provide timeline for initial load dry run	AK		Open

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

Date: (MM/DD/CCYY)	12/13/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting				

Subject: FW: GoToMeeting Invitation - Driver's License Compact

First GoToMeeting? Let's do a quick system check: <https://link.gotomeeting.com/system-check>

As you are aware, AAMVA is revisiting the Driver's License Compact and has a dedicated staff (Jessi Ross) who will be leading this effort. Jessi is requesting your assistance to join a webinar to discuss all things Driver's License Compact related. On the call we will be discussing the past, present, and future of the Non-Resident Violators Compact (NRVC), Driver's License Compact (DLC) and the Driver's License Agreement (DLA). Jurisdictional members who are involved in areas of work that include the above Compacts and Agreements and Chief Administrators are encouraged to attend.

I will send the meeting request to the Chief Administrators but please feel free to forward the invite to those additional people that should be on the call as well.

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Initial Load Testing
- Initial Load Dry Run
- Implementation Plan Updates
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

The initial load structured testing is complete and we are now ready to do the Initial Load Dry Run with all the production data. AK estimates they have around 675,000 active title records which are NMVTIS type vehicles so for that amount AK will be able to send via file transfer. AK indicated they need to update their connection to the file transfer server to open up at the root directory instead of the output folder before they send the file which should be completed in the next day or so. AK will send a test file to ensure it is working. Patrick will go ahead and cut the initial load files so they are ready to send once the connection is updated. AK is to send the files during the file transfer window of 9 pm – 7 am ET. Mina indicated she should be able to send the files by Friday evening. AAMVA will send the results of the analysis via email. If any issues are identified they will be communicated with AK and any “code” issues will need to be corrected.

Since AK is not actually performing an initial load and the initial load programs are being developed for use in the data sync process as well as for disaster recovery, if for some reason we cannot complete the initial load testing in time for this implementation, we should be able to allow that to be finished afterwards with AAMVA management approval.

AK plans to implement on the weekend of January 19th and go live on January 22, 2018. The implementation plan was updated with the new dates for tasks and is being sent to AK along with these minutes. AK should review and let AAMVA know if any changes should be made. AK can go ahead and send their contact information when they are ready. Susan has lined up VA to work with us on January 20th. AK will be implementing all applications including drivers so there will also be coordination with the other teams.

We will cancel the next few meetings and will meet again on January 10th.

NEXT STEPS:

Initial Load dry run test

Implementation tasks

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Finish validation and send results to AK for the latest initial load files	Amir Chaudhry	11/30/2017	Complete
Provide timeline for initial load dry run	AK		Complete
Send Dry Run Initial Load Files	AK	12/8/2017	Open

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	Owner	Due Date	Status

7. Next Meeting

Date: (MM/DD/CCYY)	1/10/2018	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda:	Will be Sent out Prior to Meeting				

This document 0.7.1187.5010-000002 is fully redacted

Subject: RE: Test file

Hi Mina,

I checked and I don't see the test file in CERT. There are 2 files there but they are from the initial load structured testing. I also checked production, just in case and I don't see it there either. I checked the root and also the Output folders.

In order to send a file, you will need to be coming across the AAMVAnet line so if you are trying to send from your PC and you are not routed across the AAMVAnet line it won't work. But you should be getting an error if that is the case.

Could you please send a screenshot of what you are seeing?

Thanks,
Susan Creighton / 703.908.5893 office

Good afternoon,

I just put a test file "test.txt" on what I believe is the correct location. Can you please check? I also don't see an output folder from you, so if there was one there previously, has it been deleted?

Hi Susan,

I think I see the problem...I thought I was connected but it is requiring "Further Authentication". I did put in the password twice.

Can someone send it to me again to ensure I have it correctly?

I think the problem was the "l" was stored as a "1". LOL (or is it 101???)

Thank you ☐

Regards,

Mina Peters

Subject: AK- MPR Summary Report
Attachments: MPR Summary Report- AK.XLSX

Title:	CD90.7.2 MPR Summary Report
Timing:	Monthly
Regulation:	<p>§ 384.207: Notification of Licensing</p> <p>Within the period defined in § 383.73(h) of this subchapter, the State must:</p> <ul style="list-style-type: none"> (a) Notify the operator of the CDLIS of each CLP or CDL issuance; (b) Notify the operator of the CDLIS of any changes in driver identification information; and (c) In the case of transfer issuances, implement the Change State of Record transaction, as specified by the CDLIS, in conjunction with the previous State of record and the operator of the CDLIS.
Transactions:	Add Driver (UA); Change State of Record (UD); Delete Driver (UE)
Purpose:	*This report displays summary information for the Master Pointer Records (MPRs) for a State of Record. The summary includes the addition of the new MPRs to the SOR, number of Change State of Records from and to the SOR, and the number of MPRs deleted. The subtotal of MPRs added or deleted to the State's MPR count for the month is also provided. It displays the count of Master Pointer Records (MPRs) currently present in CDLIS and the percentage of Master Pointer Records currently in state has in CDLIS.
Report Sections:	<p>Header: Report filter information</p> <p>Detail: The MPR(s) added and removed for a State of Record</p> <p>Summary Section:</p> <ul style="list-style-type: none"> * Total number of new MPR(s) added * Total number of Change State of Record (CSOR) moved into State * Subtotal of MPR(s) added to State's Total MPR Count * Total number of MPR(s) deleted * Total number of Change State of Record (CSOR) moved out of State * Subtotal of MPR(s) removed from State's Total MPR Count * MPR Count as of Report Date * Total number of MPR(s) in CDLIS as of Report End Date * 'ST' Percentage (%) as of Report End Date

NOTE: The current MPR Summary Report for your state does not include the CDL status change of the Master Pointer Records (MPRs) i.e. the number of records that have upgraded to a CDLIS MPR and the number of records that have downgraded from a CDLIS MPR which impact the CDLIS MPR count at the Central Site. AAMVA is currently working on implementing a new report to include these counts.

Need training on CDLIS Reports?

The following three courses are available:

December 12th CDLIS Reports- Timeliness & Accuracy Workbook: Timeliness (intermediate) - In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session reviews the timeliness tabs in the workbook and emphasizes how these reports can be used to get bad drivers off the road to ultimately save lives.

December 13th CDLIS Reports- Timeliness & Accuracy Workbook: Data Quality (intermediate) - In depth look at the CDLIS Timeliness & Accuracy Summary and Detail Reports. The session reviews the data quality tabs in the workbook and emphasizes how these reports can be used to get bad drivers off the road to ultimately save lives.

December 14th CDLIS Reports- CD90.4.1 OOST as SOR (advanced) - A very detailed session that will demonstrate how to use the 90.4.1 report as the SOR to reduce the number of missing convictions and to avoid improperly applying withdrawals (ensure the driver history is maintained correctly).

*NOTE: All courses are **free** for AAMVA members.*

Click the following link to view the course catalogue and to register or enroll in a session: <http://aamva.intevista.com>. If you experience trouble enrolling, or if you would like more information on any of the courses, please send an email to trainer@aamva.org.

Subject: RE: Test file

Hi Mina,

I checked and I don't see the test file in CERT. There are 2 files there but they are from the initial load structured testing. I also checked production, just in case and I don't see it there either. I checked the root and also the Output folders.

In order to send a file, you will need to be coming across the AAMVAnet line so if you are trying to send from your PC and you are not routed across the AAMVAnet line it won't work. But you should be getting an error if that is the case.

Could you please send a screenshot of what you are seeing?

Thanks,

Subject: RE: Test file

Hi Mina,

I checked and I don't see the test file in CERT. There are 2 files there but they are from the initial load structured testing. I also checked production, just in case and I don't see it there either. I checked the root and also the Output folders.

In order to send a file, you will need to be coming across the AAMVAnet line so if you are trying to send from your PC and you are not routed across the AAMVAnet line it won't work. But you should be getting an error if that is the case.

Could you please send a screenshot of what you are seeing?

Thanks,
Susan Creighton / 703.908.5893 office

Rural Minnesota Towns Consider Driverless Car Technology

A transportation researcher says rural Minnesota residents could benefit from driverless cars. Frank Douma from the University of Minnesota created a task force last year to examine how to give residents across the state access to self-driving vehicles, Minnesota Public Radio News reported. While many think of driverless vehicles being a possibility in cities or suburbs, Douma said they could also benefit rural communities. [Read the article at usnews.com.](#)

When Do Minnesotans Need To Upgrade To REAL ID?

With the new year coming soon, WCCO has heard from viewers about the status of REAL ID. When does it go into effect? When will you need a new license? What does it mean if you already have an enhanced driver's license? Good Questions. "Right now, you don't need to do anything," says Rep. Dennis Smith (R – Maple Grove), author of Minnesota's REAL ID law. "Once the state is able to produce REAL IDs, then you need to get a REAL ID between October of 2018 and October of 2020." [Read the article at minnesota.cbs.local.com.](#)

With Driver's License Suspensions Soaring, Lawmakers Seek Solutions (Ohio)

Ohio lawmakers seem ready to relax some restrictions on the driving privileges of those who have lost their licenses and have little means to pay the reinstatement fees. At least three bills related to license suspensions are pending in the Ohio legislature. [Read the article at daytonadailynews.com.](#)

AAMVA Awards 2018 - Call for Entries!

The AAMVA Awards Program recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. **The submission deadline for all entries** (including Martha Irwin Award nominations) **is December 22, 2017**. Visit the [AAMVA Awards Program online](#) for more details about the awards program, and to download the submission and nomination packet. For more information, please contact Jessica Hill at awards@aamva.org.

REGION 1 NEWS

Getting There: Real ID Act May Hinder Air Travel (Connecticut)

Something like 1.73 million Americans board airplanes every day. Each of them must go through a very necessary screening by the Transportation Security Agency. But beginning in late January, a lot of passengers will be denied boarding because they don't have the right kind of identification. [Read the article at stamfordadvocate.com.](#)

Maryland Issued Hundreds of Fraudulent Drivers Licenses Based On Counterfeit Documents, Audit Says

he state issued hundreds of fraudulent driver's licenses designed for immigrants in the country without legal documentation, a recent audit found. Two Motor Vehicle Administration Workers were fired as a result. [Read more at baltimoresun.com.](#)

New Jersey Bill Aims To Crack Down On Driving While High

As the push to legalize marijuana gains steam in New Jersey, one Morris County lawmaker wants to make it easier to catch drivers suspected of driving while high. Assemblyman Anthony M. Bucco (R-Morris) introduced a bill in the Assembly that would require police officers to take blood samples from anyone

Reagan License Plate Clears Senate Panel (Florida)

A Senate panel Tuesday approved a bill that would create a specialty license plate honoring the late President Ronald Reagan, with proceeds from sales of the plate going to Alzheimer's disease research and programs and the Florida National Guard Foundation. [Read the article at news4jax.com.](#)

Troubled Driver's License Computer System Is On Track To Launch Next Month, Kansas Department Says

A driver's license computer program rife with delays and complications is on track for launch in early 2018, a spokeswoman for the Kansas Department of Revenue said Thursday. Rachel Whitten said the second phase of KDOR's computer system replacement should go live Jan. 2 and replace the second part of a 30-year old system used to issue driver's licenses, identification cards and commercial licenses and process motor vehicle titles and registrations. [Read the article at cjonline.com.](#)

Fort Bragg To Begin Enforcing Stricter ID Requirements Next Month (North Carolina)

Some visitors to Fort Bragg will need additional identification to gain access to the post starting in January. Officials with the nation's largest military installation said they would begin enforcing stricter ID requirements on Jan. 22. The requirements are part of the long-delayed enforcement of a federal law known as the REAL ID Act. [Read the article at fayobserver.com.](#)

REGION 3 NEWS

Getting the Gold Star (Iowa)

When they look at their Iowa driver's license, many Central Iowans will find a gold star in the upper right-hand corner, and that designation will become more significant in the coming years. "You don't have to have that gold star quite yet," said Iowa Department of Transportation Director of Strategic Communication Andrea Henry of the REAL ID, an identification designation which will be required to fly on commercial aircraft as of Oct. 1, 2020. Rural Minnesota Towns Consider Driverless Car Technology

A transportation researcher says rural Minnesota residents could benefit from driverless cars. Frank Douma from the University of Minnesota created a task force last year to examine how to give residents across the state access to self-driving vehicles, Minnesota Public Radio News reported. While many think of driverless vehicles being a possibility in cities or suburbs, Douma said they could also benefit rural communities. [Read the article at usnews.com.](#)

When Do Minnesotans Need To Upgrade To REAL ID?

With the new year coming soon, WCCO has heard from viewers about the status of REAL ID. When does it go into effect? When will you need a new license? What does it mean if you already have an enhanced driver's license? Good Questions. "Right now, you don't need to do anything," says Rep. Dennis Smith (R – Maple Grove), author of Minnesota's REAL ID law. "Once the state is able to produce REAL IDs, then you need to get a REAL ID between October of 2018 and October of 2020." [Read the article at minnesota.cbs.local.com.](#)

With Driver's License Suspensions Soaring, Lawmakers Seek Solutions (Ohio)

Ohio lawmakers seem ready to relax some restrictions on the driving privileges of those who have lost their licenses and have little means to pay the reinstatement fees. At least three bills related to license suspensions are pending in the Ohio legislature. [Read the article at daytonadailynews.com.](#)

REGION 4 NEWS

British Columbia Seniors To Get New Driving Assessment

Starting next spring, at-risk seniors and other people with health problems will have a new system for determining if they are still allowed to drive. The new system will be an extended road test, using the driver's own vehicle, with an ICBC driver examiner directing a series of driving tasks with increasing complexity. [Read the article at columbiavalleypioneer.com.](#)

British Columbia Sets Minimum Age of 19 To Consume Marijuana, Plans Mix of Retail Sales

British Columbia has become the latest province to lay out its plan for regulating recreational marijuana, announcing that pot sales will be allowed through both public and private stores to buyers who are at least 19 years old. [Read the article at ctvnews.ca.](#)

L.A. Lawmakers Back New Regulations On Marijuana Industry (California)

Los Angeles lawmakers backed a host of new regulations for the marijuana industry Wednesday, paving the way for the hotly anticipated business of recreational pot. The unanimous vote was a landmark step for the biggest city in California as the state prepares to start issuing permits to grow, sell, test and distribute recreational marijuana. [Read the article at latimes.com.](#)

California Looks At Dumping Gas Tax For Per-Mile Fee As Cars Use Less Fuel

Weeks into a new gas tax hike, California transportation officials said Thursday they are studying ways to charge drivers based on how many miles they drove since their last fill-up rather than the amount of fuel they use. The problem? California drivers are choosing such fuel-efficient cars that the state fears it will be deprived of enough road construction revenues in the long run. [Read the article at sacbee.com.](#)

California Regulators Nix Rules Limiting Carmaker Liability

California regulators have nixed a plan to let self-driving car manufacturers evade liability for crashes if the vehicle hasn't been maintained according to manufacturer specifications. The new rules released this week delete a provision that was suggested by General Motors, according to Consumer Watchdog, a non-profit advocacy group. [Read the article at abcnews.go.com.](#)

ITD Sets Up 'War Room' To Find Out Cause of Latest DMV Computer Outages (Idaho)

Idaho's Department of Motor Vehicles has experienced dozens of systemwide computer outages this year, including 34 that lasted 25 minutes or longer, according to a department spokesman. The outages are actually slowdowns that prevent timely processing of information. Seven times this year they have lasted two hours or longer. [Read the article at idahostatesman.com.](#)

OTHER NEWS

Truck Drivers Scheduled To Rally Against ELD Mandate

Truck drivers are scheduled to rally at the Capitol Building on Monday against the ELD Mandate. The mandate allows electronic devices to automatically record the time a driver spends behind the wheel. Truck drivers are allowed a 14-hour work window and can drive no more than 11 hours. They are also required to take a break after driving for 8 hours. [Read the article at fox43.com.](#)

Proposed Recall Database Would Aid Notifications

Two trade associations representing major automakers are working to develop a unified industry database that would make it easier for states and other entities to collaborate on recalls. [Read the article at autonews.com.](#)

Driverless Car Bill Hits Senate Speed Bump

A driverless car bill that had been speeding through the Senate hit a speed bump in the upper chamber this week. The measure was set up under a fast-track process with the hopes of getting it over the finish line this year, but multiple senators are blocking the legislation from moving forward. [Read the article at thehill.com.](#)

Volkswagen Executive Faces Sentencing In U.S. Emissions Fraud Case

Volkswagen AG executive Oliver Schmidt will be sentenced in federal court in Detroit on Wednesday for his part in a diesel emissions scandal that has cost the German automaker as much as \$30 billion. [Read the article at reuters.com.](#)

Self-Driving Cars May Help Seniors Who Face Driving Challenges

Robot cars, the ultimate Jetsons-style advance, might seem the province of early adopters, stereotypically young people who want to leap on the latest innovations. But in fact, driverless vehicles seem well-suited for the elderly, whose own driving skills may deteriorate if their vision dims and reflexes slow. Statistics from the Insurance Institute for Highway Safety show that drivers over age 70 have a sharply higher incidence of fatal crashes. [Read the article at sfchronicle.com.](#)

Hi Susan,

My file transfer of these files failed last night. I am pretty sure it was an issue on my end. I'm going to need to look into resolving the issue today and try it again tonight.

Our snapshot is from day-end November 30, so remember the data will be a little out of synch.

Hi Mina,

I checked and I don't see the test file in CERT. There are 2 files there but they are from the initial load structured testing. I also checked production, just in case and I don't see it there either. I checked the root and also the Output folders.

In order to send a file, you will need to be coming across the AAMVAnet line so if you are trying to send from your PC and you are not routed across the AAMVAnet line it won't work. But you should be getting an error if that is the case.

Could you please send a screenshot of what you are seeing?

Thanks,
Susan Creighton / 703.908.5893 office

Hi Mina,

I'm sorry, I was out of pocket over the weekend and was not able to check my email. The file transfer windows for week days as well as the weekend are laid out in the Batch Procedures document (attached again for convenience).

If you can send them tonight, I will do my best to get the analysis done before I leave. Let me know if you run into issues again or if you send me the error you got, I may be able to help.

Thanks,
Susan Creighton / 703.908.5893 office

NMVTIS Reengineering Batch Procedures Changes

January 18, 2013

NMVTIS File Transfer Server

The IP address for conducting batch file transfer with NMVTIS in Production has changed to the following:

Environment (Production Primary)	
NMVTIS SFTP IP Address:	██████████
NMVTIS SFTP Port:	██

NMVTIS batch file submission and SEW file retrieval window

For Monday to Saturday Processing

- States should submit the NMVTIS batch update and batch inquiry files between 9:00 PM and 7:00 AM ET (Eastern Time).
- States can retrieve the Summary Error and Warning (SEW) files, batch inquiry output files and batch N* message files between 2:00 AM and 7:00 AM ET. These SEW files and output files will correspond to the input files received by 7:00 AM ET the previous day.
- *Refer to sample submission below:*
 - Files submitted to NMVTIS between Sunday from 9:00PM and Monday 7:00AM ET
 - File processing begins at 7:00 PM ET on Monday
 - Files available for States to retrieve from 2:00 AM ET – 7:00AM ET on Tuesday

For Sunday Processing

- States should submit the NMVTIS batch update and batch inquiry files between Saturday 9:00 PM and Sunday 1:00 AM ET (Eastern Time) or between Sunday 5:00 AM and 11:00 AM ET.
- States can retrieve the Summary Error and Warning (SEW) files, batch inquiry output files and batch N* message files between Sunday 5:00 AM and 11:00 AM ET. These SEW files and output files will correspond to the input files received by 7:00 AM ET the previous day.
- *Refer to sample submission below:*
 - Files submitted to NMVTIS on Friday from 9:00PM to 7:00AM ET on Saturday
 - File processing begins at 7:00 PM ET on Saturday
 - Files available for States to retrieve from 5:00 AM ET – 11:00AM ET on Sunday
 - Files submitted to NMVTIS on Saturday from 9:00PM to 1:00AM ET on Sunday (or on Sunday from 5:00AM-11:00AM ET)
 - File processing begins at 7:00 PM ET on Sunday
 - Files available for States to retrieve from 2:00 AM ET – 7:00AM ET on Monday

NOTE: The reason for a different file retrieval window on Sunday is to allow for NMVTIS weekly maintenance window which is 1:00 AM to 5:00 AM ET.

IMPORTANT: All file transfers must be conducted during the batch submission/retrieval window. Please contact the AAMVA Helpdesk at Helpdesk@aamva.org or 1-888-226-8280 option 1 if you encounter a file transfer issue and you are not able to send or pick up files during the specified times.

Disaster Recovery

In the event of catastrophic system failure, a fail over site has been established to prevent service disruption.

Environment (Production Secondary)	
NMVTIS SFTP Server IP Address:	██████████
NMVTIS SFTP Port:	██

Test Environment

The following environment is available for states to conduct file transfer testing and connectivity testing with the new NMVTIS File Transfer server:

Environment (CERT 'formerly known External Test')	
NMVTIS SFTP Server IP Address:	██████████
NMVTIS SFTP Port:	██

Directory/folder structure has changed

The directory/folder structure for accessing the NMVTIS file transfer server using SFTP is as follows:

- Location for putting batch files on the server: /
- Location to retrieve files from the server: /Output

NOTE: The former /amv/AMVXX01 (*where 'XX' represents the state code*) folders have been removed.

File naming conventions will remain the same

Send Files to NMVTIS File Transfer Server

Following are the naming standards that **MUST** be used when sending update load files to the NMVTIS SFTP host:

Brand Add

X_BRADD.txt

RECFM=FB,LRECL=060

Brand Undo

X_BRUNDO.txt

RECFM=FB,LRECL=49

Title Add

X_VINADD.txt

If you are using sequence number:

RECFM=FB,LRECL=126

If you are not using sequence number:

RECFM=FB,LRECL=104

Title Modify

X_VINMOD.txt

RECFM=FB,LRECL=151

Title Purge

X_VINPUR.txt

RECFM=FB,LRECL=48

Title Undo

X_VINUNDO.txt

RECFM=FB,LRECL=48

Where:

X is T or P (Test or Production)

Retrieve Files from NMVTIS File Transfer Server

Following are the naming standards that **MUST** be used when retrieving SEW files from the NMVTIS SFTP host (note that there are 2 SEW files produced for each Update load file sent. The first is produced after the Edit, the second after the Update):

Brand Add SEW

X_BRADD_Z_SEW.txt

RECFM=FB,LRECL=121

Brand Undo SEW

X_BRUNDO_Z_SEW.txt

RECFM=FB,LRECL=110

Title Add SEW

X_VINADD_Z_SEW.txt

If you are using sequence number:

RECFM=FB,LRECL=187

If you are not using sequence number:

RECFM=FB,LRECL=165

Title Modify SEW

X_VINMOD_Z_SEW.txt

RECFM=FB,LRECL=212

Title Purge SEW

X_VINPUR_Z_SEW.txt

RECFM=FB,LRECL=109

Title Undo SEW

X_VINUNDO_Z_SEW.txt

RECFM=FB,LRECL=109

Notification Messages

X_OUTAMI.txt

RECFM=VB,LRECL=3634

Where:

X is T or P (Test or Production)

Z is E or U (Edit or Update)

Subject: December S2S GC Meeting Agenda
Attachments: Section 0 Meeting agenda 12.13.2017.pdf

Hello,

Attached to this email is the agenda for the S2S Governance Committee meeting that will be held on Wednesday, December 13. It has also been posted to the S2S Governance Committee SharePoint site at <https://share.aamva.org/membersvc/commwg/aamvaboard/s2sgc/Meeting%20Materials/Forms/Folder%20View.aspx?RootFolder=%2Fmembersvc%2Fcommwg%2Faamvaboard%2Fs2sgc%2FMeeting%20Materials%2F2017%2D12%20Meeting&FolderCTID>. We are still in the process of finalizing some of the presentations and should have them completed and posted to the site by close of business Tuesday, December 12.

If you have any questions, comments or concerns please feel free to contact me. Thank you and have a wonderful evening.

Cindy Taber-Lowry, MBA
Lead Business Analyst

New Administrators' Orientation

AAMVA hosted 11 jurisdictional members for the annual New Administrators' Orientation last week. AAMVA President & CEO Anne Ferro and AAMVA staff gave the new administrators a briefing on how the association works and the resources AAMVA provides to help in their home jurisdictions. The new administrators also had a meet-and-greet with AAMVA employees, and had plenty of opportunities to ask questions about their association. [View photos from the meeting here](#).

AAMVA At U.S. Access Board/International Parking Institute

On Wednesday, December 6, 2017, Brian Ursino, AAMVA Director of Law Enforcement attended a meeting of the U.S. Access Board/International Parking Institute in Washington, DC, and presented an update on the progress being made by the AAMVA [Disability Placard/License Plate Fraud Working Group](#). This Working Group is developing a document outlining best practices in disability placard and license plate issuance processes as well as post-issuance fraud and violation enforcement. The Working Group anticipates publishing in August 2018.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

This Week's Webinars

[Vehicle Importing & Exporting Challenges: Law Enforcement and Motor Vehicle Agency Resources](#)

Tuesday, December 12, 2017, 1:00 - 2:00 pm (ET)

As vehicles move in and out of countries, law enforcement and motor vehicle agencies are tasked with identifying vehicle ownership and status, as well as investigating potential crimes. The importing and exporting of these vehicles can involve a variety of fraud and unscrupulous activities and provide challenges to motor vehicle agencies for vehicle title and registration processing. There are resources for law enforcement officers and DMV investigators to enhance their knowledge in the detection and investigation of these crimes. Also, motor vehicle agencies have opportunities for proactive procedures to assist in enhancing vehicle title and registration programs. This webinar will cover the following areas: examples of procedures for motor vehicle agencies to title and/or register imported vehicles; types of vehicle import and export crimes occurring today; investigative resources and techniques to assist in the investigation of these crimes; and networking contacts to enhance law enforcement and motor vehicle agency efforts. This webinar is for law enforcement officers and DMV investigators who work vehicle title and registration fraud cases or that may encounter vehicles being imported or exported. This webinar is also for motor vehicle agency staff responsible for administering vehicle titling and registration programs and for staff who process applications for such.

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, December 12, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 2](#)

Wednesday, December 13, 2017, 2:00 - 3:00 pm (ET)

Prerequisite: NMVTIS Suspense Resolution for Online States (AMIE Version) – Part 1

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume

JURISDICTION NEWS

New Jersey MVC Implementing New Requirements for Transportation Network Companies

The New Jersey Motor Vehicle Commission (MVC) is implementing new requirements for transportation network companies (TNCs), which use a digital network to connect a rider to a driver for a prearranged ride. These new requirements are mandated by the Transportation Network Company Safety and Regulatory Act, which establishes safety and insurance requirements for TNCs while allowing for continued advances in the transportation industry. [Read more here.](#)

California DMV Now Terminals Reach Milestone

Last week, the 100th DMV Now Self-Service Terminal was inaugurated with a ribbon cutting ceremony at the midtown Sacramento Safeway. The self-service kiosk is designed for customers who need their vehicle registration card and license plate tag immediately. The kiosk can also be used by customers who want to file for planned non-operation status. "It's exciting to give our customers more options to complete their DMV business," Director Jean Shiimoto said. "We will be expanding service options on the kiosks in the future." During the past year, the department has expanded the availability of the kiosks from field offices to grocery stores and a college campus. They can be found at 15 Northern California and 24 Southern California supermarkets, including one at the University of California, Irvine.

AAA and Nevada DMV Launch Vehicle Registration in Carson City

On Monday, December 4, the Nevada Department of Motor Vehicles (DMV) in partnership with AAA expanded services to include over-the-counter DMV transactions—vehicle registration, license plates and other services—at the Carson City AAA branch office. [Read more here.](#)

KYTC Urges Holiday Travelers to Check Vehicles for Open Recalls

As holiday preparations occupy the thoughts of Kentuckians, the Kentucky Transportation Cabinet (KYTC) urges travelers to add an important task to their to-do lists to stay safe on the road: check for unrepaired vehicle recalls. By visiting [www.CheckToProtect.org](#), drivers can conduct a free search for open recalls on their specific car using their Vehicle Identification Number (VIN). A search using the vehicle's year, make and model yields a list of potential open recalls. Authorized dealers will repair recalls for free. Kentucky is the first state to partner with the National Safety Council to bring awareness to motorists about Check To Protect, a national campaign to encourage drivers to search the National Highway Traffic Safety Administration's (NHTSA) open recall database. More than 105,000 clicks have been made to the website since the June campaign launch. KYTC wants to see those numbers increase in Kentucky, the state with the eighth-highest open recall rate in the nation.

Nielsen Confirmed as DHS Secretary

The United States Senate has voted 62 – 37 to confirm Kirstjen Nielsen as Secretary of the Homeland Security Department. Nielsen previously worked for White House Chief of Staff John Kelly who had run the Department prior to being named Chief of Staff to the President. Nielsen had also previously worked at the Transportation Security Administration shortly after the September 11 attacks. The Department encompasses 22 agencies and employs more than 240,000 individuals including those working in Customs and Border Protection, Immigration and Customs Enforcement, the Transportation Security Administration, the Secret Service, the U.S. Coast Guard, the Federal Emergency Management Agency, and U.S. Citizenship and Immigration Services.

U.S. Congress Clears Stopgap Spending Measure

The United States Congress has passed a short-term continuing resolution ([H.J. Res 123](#)) by a 235-193 vote. The vote came with one day remaining prior to deadline, thereby averting a partial government shutdown. The latest continuing resolution provides funding for federal agencies until its expiration on December 22, indicating that a third continuing resolution will likely be necessary this year. Debate around a comprehensive spending agreement between the majority and minority, a resolution addressing the Deferred Action for Childhood Arrivals program, and concerns over the need to address defense spending conclusively and independently prior to the new year all complicate negotiations in the limited time until the newly passed continuing resolution expires on December 22.

FMCSA Renews Medical Review Board Charter

The Federal Motor Carrier Safety Administration (FMCSA) [has announced](#) the charter renewal of the Medical Review Board (MRB), a Federal Advisory Committee that provides the agency with medical advice and recommendations on medical standards and guidelines for the physical qualifications of operators of commercial motor vehicles, medical examiner education, and medical research. This charter renewal took effect on November 25, 2017 and will expire after 2 years.

GAO Recommends NHTSA Should Take Steps to Improve Usability of Recall Website

The Government Accountability Office (GAO) has issued [a report](#) entitled, "Auto Recalls: NHTSA Should Take Steps to Further Improve the Usability of Its Website." GAO found that most consumers in GAO's focus group website usability tests found the auto recall areas of NHTSA's website – NHTSA.gov – easy to use; however, some consumers experienced difficulties when asked to complete auto recall related tasks. For example, when consumers attempted to search for recalls affecting their specific vehicles, some found the search results confusing, leading them to question the accuracy of the results. Similarly, some consumers were hampered in searching for recalls by their vehicles' year, make and model because the website did not always display model options using plain language. GAO found that the auto recall areas of NHTSA.gov do not always reflect federal and industry key website usability practices, and that an independent evaluation conducted by website usability professionals at GAO's request identified similar issues. NHTSA is in the process of consolidating its website but has not determined a completion date for the consolidation effort. GAO recommends that NHTSA determine a completion date for its website consolidation effort and take interim steps to improve the usability of NHTSA.gov by addressing the website usability difficulties GAO identified. The Department of Transportation concurred with the recommendations.

National Transportation Atlas Database Fall 2017 Update

The U.S. Department of Transportation's Bureau of Transportation Statistics has released the Fall 2017 update to the [National Transportation Atlas Database](#) (NTAD) with three new datasets and 23 updated datasets. The NTAD is a

compilation of geospatial datasets representing the nation's transportation infrastructure, including roadways, railways, and airports. [Read more here.](#)

The vote came with one day remaining prior to deadline, thereby averting a partial government shutdown. The latest continuing resolution provides funding for federal agencies until its expiration on December 22, indicating that a third continuing resolution will likely be necessary this year. Debate around a comprehensive spending agreement between the majority and minority, a resolution addressing the Deferred Action for Childhood Arrivals program, and concerns over the need to address defense spending conclusively and independently prior to the new year all complicate negotiations in the limited time until the newly passed continuing resolution expires on December 22.

FMCSA Renews Medical Review Board Charter

The Federal Motor Carrier Safety Administration (FMCSA) [has announced](#) the charter renewal of the Medical Review Board (MRB), a Federal Advisory Committee that provides the agency with medical advice and recommendations on medical standards and guidelines for the physical qualifications of operators of commercial motor vehicles, medical examiner education, and medical research. This charter renewal took effect on November 25, 2017 and will expire after 2 years.

GAO Recommends NHTSA Should Take Steps to Improve Usability of Recall Website

The Government Accountability Office (GAO) has issued [a report](#) entitled, "Auto Recalls: NHTSA Should Take Steps to Further Improve the Usability of Its Website." GAO found that most consumers in GAO's focus group website usability tests found the auto recall areas of NHTSA's website – NHTSA.gov – easy to use; however, some consumers experienced difficulties when asked to complete auto recall related tasks. For example, when consumers attempted to search for recalls affecting their specific vehicles, some found the search results confusing, leading them to question the accuracy of the results. Similarly, some consumers were hampered in searching for recalls by their vehicles' year, make and model because the website did not always display model options using plain language. GAO found that the auto recall areas of NHTSA.gov do not always reflect federal and industry key website usability practices, and that an independent evaluation conducted by website usability professionals at GAO's request identified similar issues. NHTSA is in the process of consolidating its website but has not determined a completion date for the consolidation effort. GAO recommends that NHTSA determine a completion date for its website consolidation effort and take interim steps to improve the usability of NHTSA.gov by addressing the website usability difficulties GAO identified. The Department of Transportation concurred with the recommendations.

National Transportation Atlas Database Fall 2017 Update

The U.S. Department of Transportation's Bureau of Transportation Statistics has released the Fall 2017 update to the [National Transportation Atlas Database](#) (NTAD) with three new datasets and 23 updated datasets. The NTAD is a

compilation of geospatial datasets representing the nation's transportation infrastructure, including roadways, railways, and airports. [Read more here.](#)

New Administrators' Orientation

AAMVA hosted 11 jurisdictional members for the annual New Administrators' Orientation last week. AAMVA President & CEO Anne Ferro and AAMVA staff gave the new administrators a briefing on how the association works and the resources AAMVA provides to help in their home jurisdictions. The new administrators also had a meet-and-greet with AAMVA employees, and had plenty of opportunities to ask questions about their association. [View photos from the meeting here](#).

AAMVA At U.S. Access Board/International Parking Institute

On Wednesday, December 6, 2017, Brian Ursino, AAMVA Director of Law Enforcement attended a meeting of the U.S. Access Board/International Parking Institute in Washington, DC, and presented an update on the progress being made by the AAMVA [Disability Placard/License Plate Fraud Working Group](#). This Working Group is developing a document outlining best practices in disability placard and license plate issuance processes as well as post-issuance fraud and violation enforcement. The Working Group anticipates publishing in August 2018.

Apply now for AAMVA Awards! Don't miss this opportunity to be recognized for the great work your jurisdiction does every day. Improving day-to-day business, reaching out to the community, and saving lives. The [AAMVA Awards Program](#) recognizes members of the motor vehicle and law enforcement community by honoring individuals, teams, and organizations who have committed their time and resources to the following categories: Safety, Service, Security, and Public Affairs & Consumer Education. The submission deadline for all entries, including Martha Irwin Award nominations, is **December 22, 2017**. All entries must have been implemented between October 1, 2016 and September 30, 2017. If an entry won an award in

2017, it cannot be resubmitted in 2018 unless it has had major upgrades or developments. [Download the Submission and Nomination Packet for full information on specific awards](#). For specific questions regarding awards and submissions, please contact Jessica Hill at awards@aamva.org, and visit <https://www.aamva.org/aamva-awards/> for additional information, including past winners.

This Week's Webinars

[Vehicle Importing & Exporting Challenges: Law Enforcement and Motor Vehicle Agency Resources](#)

Tuesday, December 12, 2017, 1:00 - 2:00 pm (ET)

As vehicles move in and out of countries, law enforcement and motor vehicle agencies are tasked with identifying vehicle ownership and status, as well as investigating potential crimes. The importing and exporting of these vehicles can involve a variety of fraud and unscrupulous activities and provide challenges to motor vehicle agencies for vehicle title and registration processing. There are resources for law enforcement officers and DMV investigators to enhance their knowledge in the detection and investigation of these crimes. Also, motor vehicle agencies have opportunities for proactive procedures to assist in enhancing vehicle title and registration programs. This webinar will cover the following areas: examples of procedures for motor vehicle agencies to title and/or register imported vehicles; types of vehicle import and export crimes occurring today; investigative resources and techniques to assist in the investigation of these crimes; and networking contacts to enhance law enforcement and motor vehicle agency efforts. This webinar is for law enforcement officers and DMV investigators who work vehicle title and registration fraud cases or that may encounter vehicles being imported or exported. This webinar is also for motor vehicle agency staff responsible for administering vehicle titling and registration programs and for staff who process applications for such.

[NMVTIS State Web Interface \(SWI\) – How to Correct Title and Brand Data on the Central Site](#)

Tuesday, December 12, 2017, 2:00 - 3:00 pm (ET)

In the past, states contacted the AAMVA Help Desk directly if they needed to make a data correction. As part of the NMVTIS reengineering effort, a Help Desk feature was created to allow states to correct their title and brand data on the central site. When states perform their own data corrections the timeliness and accuracy of the data corrections improves substantially. This webinar is focused on explaining the capability of the Help Desk feature as included in the SWI. Data correction scenarios are explained and matched to the correct update operation within the SWI. A brief overview of the SWI application will also be provided

[NMVTIS Suspense Resolution for Online States \(AMIE Version\) - Part 2](#)

Wednesday, December 13, 2017, 2:00 - 3:00 pm (ET)

Prerequisite: NMVTIS Suspense Resolution for Online States (AMIE Version) – Part 1

NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume

JURISDICTION NEWS

New Jersey MVC Implementing New Requirements for Transportation Network Companies

The New Jersey Motor Vehicle Commission (MVC) is implementing new requirements for transportation network companies (TNCs), which use a digital network to connect a rider to a driver for a prearranged ride. These new requirements are mandated by the Transportation Network Company Safety and Regulatory Act, which establishes safety and insurance requirements for TNCs while allowing for continued advances in the transportation industry. [Read more here.](#)

California DMV Now Terminals Reach Milestone

Last week, the 100th DMV Now Self-Service Terminal was inaugurated with a ribbon cutting ceremony at the midtown Sacramento Safeway. The self-service kiosk is designed for customers who need their vehicle registration card and license plate tag immediately. The kiosk can also be used by customers who want to file for planned non-operation status. "It's exciting to give our customers more options to complete their DMV business," Director Jean Shiimoto said. "We will be expanding service options on the kiosks in the future." During the past year, the department has expanded the availability of the kiosks from field offices to grocery stores and a college campus. They can be found at 15 Northern California and 24 Southern California supermarkets, including one at the University of California, Irvine.

AAA and Nevada DMV Launch Vehicle Registration in Carson City

On Monday, December 4, the Nevada Department of Motor Vehicles (DMV) in partnership with AAA expanded services to include over-the-counter DMV transactions—vehicle registration, license plates and other services—at the Carson City AAA branch office. [Read more here.](#)

KYTC Urges Holiday Travelers to Check Vehicles for Open Recalls

As holiday preparations occupy the thoughts of Kentuckians, the Kentucky Transportation Cabinet (KYTC) urges travelers to add an important task to their to-do lists to stay safe on the road: check for unrepaired vehicle recalls. By visiting [www.CheckToProtect.org](#), drivers can conduct a free search for open recalls on their specific car using their Vehicle Identification Number (VIN). A search using the vehicle's year, make and model yields a list of potential open recalls. Authorized dealers will repair recalls for free. Kentucky is the first state to partner with the National Safety Council to bring awareness to motorists about Check To Protect, a national campaign to encourage drivers to search the National Highway Traffic Safety Administration's (NHTSA) open recall database. More than 105,000 clicks have been made to the website since the June campaign launch. KYTC wants to see those numbers increase in Kentucky, the state with the eighth-highest open recall rate in the nation.

Nielsen Confirmed as DHS Secretary

The United States Senate has voted 62 – 37 to confirm Kirstjen Nielsen as Secretary of the Homeland Security Department. Nielsen previously worked for White House Chief of Staff John Kelly who had run the Department prior to being named Chief of Staff to the President. Nielsen had also previously worked at the Transportation Security Administration shortly after the September 11 attacks. The Department encompasses 22 agencies and employs more than 240,000 individuals including those working in Customs and Border Protection, Immigration and Customs Enforcement, the Transportation Security Administration, the Secret Service, the U.S. Coast Guard, the Federal Emergency Management Agency, and U.S. Citizenship and Immigration Services.

U.S. Congress Clears Stopgap Spending Measure

The United States Congress has passed a short-term continuing resolution ([H.J. Res 123](#)) by a 235-193 vote. The vote came with one day remaining prior to deadline, thereby averting a partial government shutdown. The latest continuing resolution provides funding for federal agencies until its expiration on December 22, indicating that a third continuing resolution will likely be necessary this year. Debate around a comprehensive spending agreement between the majority and minority, a resolution addressing the Deferred Action for Childhood Arrivals program, and concerns over the need to address defense spending conclusively and independently prior to the new year all complicate negotiations in the limited time until the newly passed continuing resolution expires on December 22.

FMCSA Renews Medical Review Board Charter

The Federal Motor Carrier Safety Administration (FMCSA) [has announced](#) the charter renewal of the Medical Review Board (MRB), a Federal Advisory Committee that provides the agency with medical advice and recommendations on medical standards and guidelines for the physical qualifications of operators of commercial motor vehicles, medical examiner education, and medical research. Subject: RE: AK delay of implementation

Good afternoon,

I'm checking back to see if you all have any more information on this. We need to know what day to plan on beginning the enhanced smoke test, and hopefully the test plan if possible.

Regards,

Hi Sruti,

Thank you for the reply. It's hard to answer your question without knowing how much more is going to be added to the smoke test. Our last SPEX/PDPS combined smoke test took a little over a week. Would 2 weeks be sufficient time? I also know you don't want to do it too early, either, so it's hard to find that sweet spot. And of course, the closer we come to go-live, the less available our resources will be, also.

So, my question to you is, how early will you allow us to do this extended smoke test? Would January 2 be too soon?

Subject: RE: AK delay of implementation

Good morning, Mina.

I meant to respond earlier to this email and apologize for the delay.

Thank you for letting us know about the delay in your Implementation. As you know, ideally we request that Jurisdictions implement the Structured tested changes to Production within 6 weeks of completing the Structured test. That said, we understand that there are other delays due to which the Implementation does not happen within that 6 weeks. In AK's case, AK completed the Structured test for all applications on 9/26/17, that makes it about 16 weeks (almost 3 ½ - 4 months) since you completed the Structured test. Typically, with such a huge time delay between the Structured test and Implementation, we require that Jurisdictions perform a complete End to End pass of the Structured test. That is jurisdictions execute ALL the driver streams as they would in an End to End pass with the expectation it would be a clean run. In case of any issues that arise during this execution phase, we would have to discuss further testing needed.

That said, AK completed a smoke test in November with the AK gap code and there have been no issues of the select driver streams we executed during the smoke test. Keeping that in mind, I propose that you do a little more than what we did during the smoke test but not all the driver streams for SPEXS and PDPS. We will review the Test plans and propose the driver streams to be executed for this phase of testing.

Would you be able to let me know when you would be ready to perform this testing?

Please let us know so we can send you the details of the testing.

Thank you.

Subject: AK delay of implementation

Good morning,

As I mentioned last week, Alaska is delaying our go-live transition date by 7 weeks, to go live the weekend of January 20. We will not be changing UNI during this time - it's delayed due to issues with our workstation services, reporting, and some internal UI issues. We need to know if we will have to re-do the PDPS and SPEXS smoke test since we will have this delay.
